FRIENDSHIP SHOULD BE DOMINANT NOTE IN OUR RELATIONS

Churchill Says England and United States Should Understand Each Others Ideals and Gain Unity For All Time--Reading Praises U. S. Act Durng War

(By The Associated Press)

LONDON, Feb. 12.—A plea for making the dominant note in the Anglo-American relations one of friendship and understanding, rather than of sensationalism and inaccurate representation was made tonight by Winston Spencer Churchill, the newly appointed secretary for the colonies, and Earl Reading, viceroy of India, at a farewell dinner to Lord Reading by the English Speaking Union.

The guests included Mrs. John W. Davis, representing the American ambassador who was absent owing to indisposition; Sir Hamar Greenwood, chief secretary for Ireland; Sir Alfred Mond and the Archbishop of Canterbury.

Both Mr. Churchill and Lord Reading in their speeches alluded to the co-operation between Great Britain and the United States in the late war and the need of preserving through long years of peace what had been gained at such cost and peril. The viceory said it was essential that the two nations understand each other because misunderstanding bred suspicion and suspicion bred mistrust; but with a common understanding of each other's ideals and aims Anglo-American unity was gained for all time.

Lord Reading gave what he declared to be the first public utterance concerning one war-time evidence of American friendship to England, saying that a moment during the war when silver was unavailable and England urgently needed it to cover rupees in India, the American Congress passed legislation opening the treasury reserves and silver was forwarded to India.

"So far as I know," he added, "America has since made no claim regarding the matter."

TARIFF BILL TO COME UP MONDAY

WASHINGTON, Feb. 12.—The Fordney emergency tariff bill was placed in parliamentary position by the senate tonight for resumption of debate on Monday and leaders in charge announced that they expected its final disposition by Wednesday.

After having been shunted aside for several days to permit passage of appropriation bills the tariff bill tonight was made the order of business upon reconvening of the senate Monday. There was no arrangement or understanding regarding a final vote but those in charge said they had hoped to have the bill disposed of in time for resumption of work on appropriation bills next Thursday.

REAL ESTATE MAN CHARTERED SPECIAL

Siox City, Ia., Feb. 12.—After experiencing an acute pain in his throat last night, A. B. Johnson, 40, of Ida Grove, Iowa, a wealthy real estate man, chartered a special train in order to reach home as soon as possible. The special train departed from Sioux City at 11 o'clock, making the trip of 75 miles in less than an hour and thirty minutes. Mr. Johnson was met at the Ida Grove station by physicians and a private nurse and was rushed to his home. Physicians took a throat culture and sent it to the state university. A report on the culture is being awaited.

LANDIS DECLINED TO MAKE STATEMENT

Des Moines, Iowa, Feb. 12.—Federal Judge Landis of Chicago declined to make any statement tonight regarding reports that Senator Dial, of South Carolina, would bring impeachment proceedings against him if he could obtain confirmation of statements credited in the press to Judge Landis in the case of Francis J. Carey, a bank clerk charged with embezlement.

Judge Landis was in Des Moines to speak at a meeting of the Iowa American Legion.

ANTI-SYNDICALISM ACT WAS UPHELD

BATTLE BETWEEN DETECTIVES AND CITIZENS TOLD

One of Detectives Relates Story in Murder Trial

TROOPS GUARD COURT HOUSE AND JAIL

(By The Associated Press)

WILLIAMSON, W. Va., Feb. 12—Excited and confused with pistols and rifles popping on every side, John McDowell, one of the Baldwin-Felts detectives, who battled with the citizens of Matewan last May 19, testified today that he fired three shots at Reece Chambers, one of the defendants and then fled from the scene where seven of his comrades and three of the town police lay dead in the village street.

McDowell who was the first witness called at the trial of nineteen Matewan men who have been indicted in connection with the death of Albert C. Felts, leader of the detectives told his story to the jury and a crowded court room.

McDowell said he had come with the other detectives to evict from houses owned by the Stone Mountain Coal company at Matewan, a number of miners and their families.

Later in the day when the evictions were over and the men were preparing to leave Matewan, Sid Hatfield, chief of police, told Felts that warrants for their arrests had been sworn out in Williamson and were coming on the next train.

McDowell was not clear as to how the shooting started or who fired the first shot but he said that while the Baldwin-Felts men were going to te railroad station, they pased a hardware store about the door of which some fifteen men had gathered. Sudenly the shooting began.

McDowell said the only man he saw shooting was Reece Chambers. May Chafin, the 17-year-old niece of Reece Chambers, was on duty in the Matewan telephone exchange as operator that day, she testified. She heard Sid Hatfield call deputy sheriff Webb and ask him when warrants could be obtained for the arrest of the Baldwin-Feltz detectives. She further testified that she heard Hatfield tell Webb, "We'll kill the ——— before they get out of Matewan."

A military guard of federal infantrymen are on duty about the court house and the county jail to prevent any attempt to liberate the prisoners.

AGRICULTURRAL BILL CARRIES LARGE SUM

Washington, FeFb. 12.—The agricultural appropriation bill as approved today by the senate agriculture committee carried nearly $206,000,000 more than the $33,000,000 house total. The principal increases voted by the committee are $200,000,000 for purchase by the treasury of federal farm loan bonds and $5,000,000 for loans to buy seed grain for farmers in drought stricken areas.

WILL KEEP MOUTH SHUT AND HER EYES OPEN

Muskogee, Okla., Feb. 12.—In saying her official good-bye to Oklahoma, Miss Alice Robertson, only congress women-elect told members of the American legion here tonight she was going to Washington to "keep my eyes open and my mouth shut."

"You won't hear much from me at the start," she added.

WOULD INCREASE SALARY OF SPEAKER GILLETT

Washington, Feb. 12.—The salary of Speaker Gillett of the house would be increased from $12,000 to $15,000 under an amendment to the annual federal salary board today in the senate.

FORMER ILLINOIS GOVERNOR MAY BE IN HARDING CABINET

Lowden Talked of for Secretary of Navy

DAWES CONSULTS WITH HARDING

(By The Associated Press)

ST. AUGUSTINE, Fla., Feb. 12.—While the cabinet problem was taking on new elements of uncertainty today, President-Elect Harding let it be known that his plans for international peace and disarmament also are far from definite formulation.

Taking note of published reports that a disarmament conference would be called early in the new administration, Mr. Harding said he had made no such plans, although the idea fitted in with his general scheme for an association of nations. It was a feature of the problem, he added, to which he would give no specific attention until he came into the presidency and was fully advised as to the status of diplomatic relations with the other powers.

Repeatedly the president-elect had included reduction of armaments among the requirements for a peace association and his close advisers believe the subject will receive his earnest attention as soon as he takes up negotiations for his peace plan.

Lowden is Mentioned

Today's cabinet developments concerned chiefly Charles G. Dawes and Frank O. Lowden, both of Illinois, and mentioned for the posts of secretary of the treasury and secretary of the navy, respectively. The net result was to leave more in doubt than ever, whether either would be a member of Mr. Harding's official family.

Mr. Dawes, who recently denounced Republican investigations into the conduct of the war, spent more than an hour in consultation with Mr. Harding and afterwards refused to answer any questions about cabinet prospects.

Mr. Harding said they had talked about co-ordination of government agencies. The president-elect added that he had high regard for Mr. Dawes' ability and had found the talk most illuminating but further comment was withheld.

So far as is known, Mr. Lowden has no definite appointment to come here, but it was learned authoritatively today that the question of his accepting a cabinet post has not been settled. Published reports that he has declined finally the secretary of the navy, are understood to be in error, and it is believed that the president-elect still hopes to have him in the cabinet.

Tonight Mr. Harding took part in two Lincoln birthday celebrations, pressing a button to open a Lincoln banquet in Seattle, Washington, and during the evening attended a Lincoln memorial service held in the lobby of his hotel.

WILL BE ASKED TO EMPLOY VESSELS

(By The Associated Press)

WASHINGTON, Feb. 12—Congress will be asked to enact special legislation authorizing the shipping board to employ vessels to haul to China grain donated by American farmers for the relief of the starving in that country and giving the navy department permission to pay the necessary expenses of volunteer naval reserves to form crews for the vessels, it was announced today after a conference between Secretary Daniels and Chairman Benson of the shipping board.

The decision was reached after a committee, headed by Carl Vrooman, former assistant secretary of agriculture, had said that the grain already had been given by farmers in the west and that members of the railroad brotherhoods stood ready to haul it to the coast without charge for their services.

Chairman Benson agreed to ascertain at once what ships are available for the purpose on the Pacific coast. He will meet again with Secretary Daniels Monday to draft the proposed legislation.

AMERICAN TOYS WILL BE CHEAPER

(By The Associated Press)

New York, Feb. 12.—American toys will be cheaper during the coming year, the Toy Exhibitors of America announced today at their annual fair which is being attended by 250 toy manufacturers from all parts of the country. It was explained that price reductions would be necessary in order to meet European competition.

WOMAN'S SUFFRAGE WAS FORESEEN BY ABRAHAM LINCOLN

Predicted It Would Come to Pass 84 Years Ago

WONDERFUL INSIGHT INTO AFFAIRS

(By The Associated Press)

SPRINGFIELD, Ill., Feb. 12—Lincoln was a prophet of woman suffrage 84 years before the nineteen amendment became the law of the land, as indicated by his New Salem letter of 1836, Governor Sproul, of Pennsylvania, who preceded Ambassador Pezet on the program, declared. He typified Lincoln as one, "whose extraordinary insight into politics and public questions was remarkably keen at the age of twenty," as illustrated by his speeches and writings at that age.

Continuing Gov. Sproul said:

"On this day, dedicated to his memory, we may not only express our measureless sense of gratitude and reverence for what he was and what he did, but we should reconsecrate ourselves to the service of the republic as it was saved under his leadership, and resolve to keep it clean and unspoiled as a blessing for those who come after us.

"We may rejoice that America has weathered the wild storm and that our people are passing thru the sinister wreck cast up by the tempest without departure from the faith of the fathers nor loss of confidence in the future of our republic. Our national altars fashioned in such wisdom by our forefathers, dedicated from time to time by our sons with such devotion, so loved and enriched by Abraham Lincoln, stand undefiled in our temples.

"Out of this celebration and the sacred memory of Abraham Lincoln, we may confidently predict a rebirth of those virtues which glorify our free government and through which the republic with all its blessings and opportunities shall never fail us."

ARCHBISHOP IN LETTER WARNS CONGREGATION

Says Conspiracy Against Church or State is Wrong

REFERS TO CARDINAL MANNING'S WORDS

(By The Associated Press)

LONDON, Feb. 12.—Cardinal Bourne, archbishop of Westminster, in a pastoral letter to his archdiocese which will be read in the churches tomorrow, refers to the "horror and outrage" in Ireland.

"In the midst of this confusion," the letter continues, "I have grave reason to fear that some of my own flock, impelled by legitimate love of country and urging relation of their lawful aspirations, are allowing themselves to become implicated by active sympathy or even actual co-operation, in societies and organizations which are in opposition to the laws of God and the Catholic church."

Cardinal Bourne refers to the warning of Cardinal Manning in 1866, in which Catholics were reminded that the church, thru the Pope, had declared all conspiracy, whether against the church or state, was a sin against the former because it could not be without heresy and apostacy and against the latter because it was rebellion. Cardinal Bourne adds:

"And I take that warning heard fifty five years ago, and make it my own today."

The Cardinal concludes by declaring that parliament should deal "justly and promptly with this tragedy in Ireland."

PRODUCE PRICES LOW IN NEW YORK

(By The Associated Press)

NEW YORK, Feb. 12—Wholesale prices for fruits and vegetables are so low in the New York market that many farmers who shipped produce here received nothing in return but a bill for the balance due on freight charges. Dr. Eugene H. Porter, state commissioner of foods and markets, declared in a statement here today. Even with prices at prewar levels, "People seem to be eating less than usual," he added.

Farmers and wholesalers, the commissioner said, believe this condition due to the retail trade not giving the benefit of low prices to the public. Instances of how substantial losses accrued to farmer-shippers were cited.

A carload of lettuce, shipped from Florida, sold here for $339, the commissioner said. Total expenses were $491. A carload of spinach from Texas sold on the wholesale market for $262 less than freight and cartage charges which loss also was procketed by the shipper, Dr. Porter said.

FIRE DESTROYS ALL BUSINESS HOUSES

Grundy Center, Ia., Feb. 12.—Fire which started in the post-office at 6 a. m. today, totally destroyed all business buildings in Morrison, a town of 150 population, five miles notheast of here. The loss is estimated at $30,000. Cause of the blaze is not known.

ENLISTED STRENGTH OF NAVY TO BE CUT DOWN AFTER JULY 1

Provision Calls for Reduction to 100,000 Men

MEMBERS QUARREL OVER DISARMAMENT

(By The Associated Press)

WASHINGTON, Feb. 12.—The house today accepted without comment the provision for reducing the enlisted strength of the navy from 143,000 to 100,000 men after July 1.

During consideration of the naval appropriation bill no objection was raised to the section providing funds for approximately 100,000 during the coming fiscal year. It elicited neither criticism nor friendly remarks and remained in the bill intact.

Classes providing for a reduction of the marine corps from approximately 27,000 to 20,000 men and for an appropriation of $90,000,000 to carry on the building program of the navy during the next fiscal year probably wil be reached Monday. Chairman Kelley of the sub-committee which drafted the bill, said he expected a field day of oratory on disarmament when the construction program section is considered.

The quetsion was discussed for a brief period today. After Representative Green, Republican, of Iowa, ranking Republican member of the war committee, had urged reduction of armaments Representative Garrett, Democrat, of Tennessee, for ten minutes took the Republican party to ask for "scrapping the only disarmament program ever laid before the world—the league of nations."

Representative Brittin, Republican, of Illinois, wanted to know if the league of nations mean disarmament when nations already in the league had taken no steps to reduce the strength of their armies and navies.

Building Big Navy

"Because the United States is not in the league," he said, "We are trying to build the biggest navy in the world. I do not believe nations in the league can or will agree to armament reduction as long as we continue to strengthen our navy."

Representative Madden, Republican, of Illinois, then asked why Franklin D. Roosevelt, as assistant secretary of the navy, appearing before a house committee had favored, "the biggest navy in the world."

"Because," Mr. Garrett replied "the Republican majority in the senate was bound not to ratify the treaty and league of nations covenant.

"If we're determined to live by ourselves, it is up to us to build a navy as powerful as the navies of all the rest of the world combined," he added.

Attacks on the navy bill on the ground that many of its provisions were new legislation not permitted in appropriation bills continued today. Representative Britten leading the fight He was less successful, however, than on previous days and practically all sections considered remained intact.

UNIVERSITY MEN ARE BADLY NEEDED

(By The Associated Press)

ST. LOUIS, Feb. 12—Warning that "our country is, in a sense, always in peril and today perhaps more than ever," Dr. John Grier Hibben, president of Princeton university in an address tonight asserted university graduates were needed more at present than ever.

"An ardent patriotism which shows itself in readiness for service, is needed today quite as much as in the years of 1917 and 1918. While that was a time of obvious peril and the patriot's duty was clear, let us not forget that our country is in a sense always in peril, and today perhaps more than ever. The call now is for men whose disciplined thought can quickly penetrate the superficial plausibility of the theories of the day, born either of fanatism or of fear; men who are able to lift themselves above passion and prejudice and class jealousy. Such men our universities must furnish and this task they can accomplish only by creating and causing to prevail throughout the whole of the university life that spirit of which is the need and demand of the present age.

PIONEER LUMBERMAN DIES IN NEW YORK

New York, Feb. 12.—William Harrison Day, 81, formerly president of the Standard Lumber company, Dubuque, Iowa, and a pioneer lumberman in the Mississippi valley, died today at his home here. He was born in Fredericksburg, Ohio, and was a Union veteran of the Civil war.

Pana, Ill., Feb. 12.—The proposal to introduce the commission form of government in Pana was overwhelmingly defeated here today in a special election.

EDITOR OF NATION CAUSES INCIPIENT RIOT IN CINCINNATI

Men Force Way Into Auditorium Where Address is Given

SEVERAL ARE CUT BY BROKEN GLASS

(By The Associated Press)

CINCINATI, O., Feb. 12.—Scenes of turbulence that necessitated the sending of a riot call to police headquarters marked the course of an address delivered this afternoon by Oswald Garrison Villard, editor of the Nation, and former editor of the New York Evening Post. The address was given under the auspices of the City club and the Woman's City club.

During the week there had been many resignations from both clubs on the ground that Villard was an admitted pacifist, both during, and after the war.

Villard was in the midst of his address when about fifty men rushed up the stairs to the auditorium. A closed door containing a glass panel opened into an inner room. The glass was broken and several of the invaders and the defenders who rushed to hold the door shut were slightly cut. The crowd ponured into the ante room and there was a wild melee. Women members of the club threw themselves against the main door to bar the invaders who were yelling, "Let's go." "We demand to hear this man."

Blows were exchanged and the noise attracted a throng in front of the club house. A riot call of the club house. A riot call serves responded The stairway and the ante room were soon cleared. Villard halted during his address as a result of the noise, but continued when the police had cleared the place.

Herbert Zell, who denied that he was the leader of the attacking force, was charged with assault and battery but was released on bond.

MOTHERS SENDING DAUGHTERS TO HELL BY PRESENT STYLES

Allow Them to Walk the Streets Almost in Nakedness

MISSOURI LAW MAKER SAYS

(By The Associated Press)

JEFFERSON CITY, Feb. 12—Assertion that "half clad women are running about the halls of the capital building" was made before the house judiciary committee of the Missouri legislature by Representative John C. Dyott of Howell county during a hearing on an injunction statement bill aimed at resorts.

"I believe the mothers of this country are helping to send their daughters to hell by permitting them to walk the streets almost in a state of nakedness" he declared in denouncing what he termed immodesty in dress.

The discussion of the present tendencies in womens dress came while Miss Varnia Jackson, representing the women's commercial club of Kansas City, was pleading with the committee for enactment of the bill for the use of the padlock and injunction to close resorts.

"You might substitute the Bible for this bill," remarked Representative Witaker.

Miss Jackson said the organization she represented was working to curb immodest styles and said the high skirt had a bad moral effect.

Miss Jackson agred to lobby for a bill to regulate extreme styles among girls and women if such a measure was introduced. Missouri ranks fortieth in mirals she said.

CASE APPEALED TO SUPREME COURT

Springfield, Ill., Feb. 12.—Abraham J. Messing, former Jewish rabbi in Bloomington, and Blackstone professor at Illinois Wesleyan University, was named for disbarment by the Chicago Bar association in a petition presented the supreme court today. Messing's name was coupled with that of Edawrd J. Ader another Chicago lawyer. They both are under federal penitentiary sentence for their part in the Consumers Packing company swindle The case has been appealed to the U. S. supreme court.

GRAIN BILLS WILL COME UP MONDAY

SENATOR DIAL NEED NOT SEEK FURTHER SAYS JUDGE LANDIS

Reiterates Statement That Bank Directors Were Responsible for the Theft of Francis J. Carey—Says That He Will Not Send Culprit to the Penitentiary for His Crime

(By The Associated Press)

DES MOINES, Lowa, Feb. 12.—Federal Judge K. M. Landis of Chicago, in a speech before the Iowa American Legion tonight, declared he had made statements similar to those Senator Dial of South Carolina criticized him for today. "Senator Dial says," stated Judge Landis, "that he has written to find out if what I said is truthfully reported—that is to say, that the bank was really responsible for the theft, because they paid Carey only $90 a month. This fellow won't have to inquire any further. I want to save him his time for his cotton mills and his banks."

Judge Landis then went into details of the case in which Francis J. Carey, a clerk in the National City Bank of Ottawa, Ill., was charged with the embezzlement of $96,000. Carey, he asserted, was only nineteen years old, and was paid but a little more than $3 a day for handling approximately $1,000,000 a month.

Judge Landis declared that his investigations showed him that young Carey was the support of his mother and younger brothers and a sister. The judge further declared that his study of the situation had disclosed the fact that the bank which employed Carey as receiving teller at $90 a month paid twenty per cent of profit on the investment to their shareholders on their stock per annum."

"Then it was," Judge Landis declared, "That I made the statement that a board of bank directors that were guilty of creating the conditions I have outlined would naturally and reasonably invite embezzlement. I repeat that here and I send that to Senator Dial with my compliments.

Judge Landis declared that he had, of course, to send "Carey some place, but that he did not intend to send him to the penitentiary.

HURLEY TELLS OF SHIP BUILDING BY U.S. DURING WAR

Was So Rapid It Astounded Allies and Germany

WOULD NOW JUNK WOODEN SHIPS

(By The Associated Press)

WASHINGTON, Feb. 12—Both the allies and the Germans were astounded at the rapidity with which the shipping board constructed ships after the United States entered the war, house committee investigating the board operations was informed today by E. N. Hurley, of Chicago, who was chairman of the board from July, 1917 to the summer of 1919.

The former chairman discussed the favorable comment he had heard abroad after touching in a general way on criticisms directed at the board in this country. Admitting that misakes had been made, Mr Hurley said that was inevitable since it was necessary to create a mammoth organization in a short time for the purpose of turning out ships."

"We delivered the ships," he declared.

"That is what we were supposed to do."

Profited By Mistakes.

Shipping board officials profited by their mistakes and took pains not to repeat them, the witness said, adding that the country could view with pride the accomplishments of the board. The ships it put into use he declared, helped turn the tide at the most critical period of the war.

Mr. Hurley paid tribute to the men associated with him, especially Charles M. Schwab, who, he said, had been drafted to take charge of construction when satisfactory progress was not being made. At the peace conference, Mr Hurley continued, Clemenceau told him that the appointment of Mr. Schwab had frightened the Germans, heartened the French and enthused the British.

"I knew that his appointment" he added, "Inspired the American people to get behind the ship building program.

He expressed optimism over the future of the American merchant marine, but said that too many ships might prove a liability in case sufficient cargoes could not be obtained for them.

Junking of the government's fleet of wooden ships was favored by Mr Hurley, who said the vessels were no longer of any use or practical value.

DISBARMMENT PROCEEDINGS AGAINST LAWYERS

Springfield, Ill., Feb. 12.—Disbarment proceedings against Atty Isaac E. Ferguson of Chicago, on the grolund that he had been convicited of criminal anarchy in New York and is now serving a term in Sing Sing were started by the Chicago bar association today in the supreme court. Disbarment proceedings were also filed against Abraham J. Messing and Edward J. Ader also of Chicago on charges of working a confidence game.

RECOMMENDS THAT SUIT BE THROWN OUT

Topeka, Kans., Feb. 12.—Walter E. Nilson, state banking commissioner, is absolved from any official misconduct as charged in an ouster suit brought against him by Attorney General Hopkins, in findings filed in the supreme court today by J. M. Challiss, commissioner of the court, who recommends that the suit be thrown out.

AIRPLANES OBTAIN NO INFORMATION

EL PASO, Texas, Feb. 12.—Airplanes which have been in the air most of the day, have obtained no information concerning the whereabouts of Lieut, Pearson, lost aviator, or his plane, which is believed to have been wrecked in the Pecos Valley it was announced tonight.

Lieut, Pearson, when he took the air Thursday morning at Fort Bliss, carried with him no food, water or provisions of any kind.

Officers at Fort Bliss now believe that the lost aviator is in the Big Bend district, or probably landed somewhere across the Rio Grande.

CAT HAS BEEN ON THE JOB FOR YEARS

WASHINGTON, Feb 12.—With a hundred million rats at large, one non-civil service employe of the post office department faces inauguration day unafraid. His job is safe to the end of the last of his nine lives, the authorities declared today, while Old Tom, official rat catcher by appointment of Former Postmaster Hitchcock, licked his chops and looked wise. The cat has been on duty twelve years and is prepared to give the new boss points when it comes to "smelling a mouse" and that's part of a postmaster's job as everybody knows.

It is hard to understand, yet yet Germany, a defeated nation, is admittedly using a program of propaganda in the U. S. to influence congress in various matters growing out of the war.

A representative of one of the big railway workers' unions in a statment says that his organization is ready to change wages, rules, and working conditions when facts justify the change. He said that only principles are immutable. That statement has a good sound. If only those who employ and those who are employed would with honesty and sincerity follow out that program, labor troubles would disappear.

The Nichols park board has done well in making provision in its budget for the beginning of the development of Mauvaisterre lake and the north park drive. True, this is a big project and the fund of $5,000 will be merely a start. Nevertheless it is a liberal provision for the work when the board's financial status is taken into account. A beginning of this important work will impress the people with the beauty and possibilities of Mauvaisterre park and no doubt give such impetus to the park development project that ways can be found further financing.

W. R. Hearst has filed a suit at Washington to prevent the secretary of the treasury from making loans or advances to any foreign country. This question of internaitonal finance is too big for the average citizen to understand, but there are a lot of people who believe that if some plan could be worked out for extending credit to the foreign nations that there would come immediate demand for surplus commodities in the U. S. and the financial situation greatly relieved.

It is strange that there is really so much interest in the discussion about Japan's talked of navy building vacation. Even if the law proposed for this program is passed by the Japanese legislative body, half the people in the United States will not believe that ship-building has really ceased.

A great many Democratic papers and just a few of the Republican type seem greatly disturbed over the discussion of President-elect Harding's proposed cabinet. The next president is already being criticised in some quarters for his alleged appointments.

Thus it will be seen that some critics are so alert that they get busy before the matters complained of have really happened.

A young ex-service man in none too prosperous circumstances found a woman's purse on the street last night, containing a few dollars. There was no identification card but the finder brought the purse to this office and advertised for the owner. It's too bad, but true, that this act of honesty is worthy of comment. People who manage newspapers know that those who lose purses and advertise for them not once in ten times find their property. The cases of those finding money and then advertise the fact are still fewer in number.

HAWAIIAN PLAY GIVEN AT THE GRAND

"A Night in Honolulu," a pretty musical play, was presented at the Grand opera house yesterday in matinee and night performances. The stage settings were of a kind to give an accurate picture of the tropical islands and were beautiful indeed. As in all Hawaiian presentations, dancing and music had a large part in the program. The presenting company last night was capable and the large audience was well pleased with the performance.

Modern Cursery Rhymes.

Baa, baa, bootleg,
Have you any skat?
Yes, sire I have
Plenty of that!
Some is wood alcohol,
Some is just nitre.
But all of it will make you fight,
And kick you wife and bite her!

Mean Brute.

Mr. and Mrs. Gabb were in a street car on their way to the theater. Mrs. Gabb was dolled up and made up to look her best. She happened to notice a face powder advertisement on the other side of the car.

"I saw a statement in a magazine this morning claiming that the women of the United States use 100 tons of face powder daily," remarked Mrs. Gabb. "Do you belive that?"

"Sure, I believe it," growled Mr. Gabb, "You've got almost that much on your map right now!"

The Reason.

He'll always be a plodding mutt,
And he will not advance;
He stays right in the same old rut,
He will not take a chance.

Health Hint

If you have anything to say to a mule, don't say it behind his back. Say it to his face.

Economy.

"I see here," indignated Mr. Commonfolks, as he slammed his newspaper on the floor, "where this country is so durned hard up that it can't afford $8 to help a one-legged war hero get an artificial prop. An' I also see where it has so much loose change that it can hand the Holy Joes $8,000,000 to hire a lot of pussyfootin' sneaks to search your bed and baggage to see if they can't arrest you for drinkin' somethin' besides water. Seems like for every American in this country there's ten Ungrateful Hypocrites. An' if this be treason you kin take it or leave it."

Bless Her Heart!

He has a wife
That I admire;
She gets up first
And builds the fire.

Paw Knows Everything.

Willie—Paw, what is the difference between a rent and a tear?

Paw—Wel, my son, if a man goes on a tear these days he won't have enough coin to pay his rent.

Aw, Lemons!

I think that we'll make quite a pair,
To kiss her cherry lips I sigh;
She is a peach, you wil declare,
And she's the apple of my eye.

The Luke McLuke Minstrels.

"Mister Interlocuter, can you tell me the difference between a spirited horse and a baseball fan on a cloudy day?"

"No, Mr. Bones, I cannot. Will you explain the difference?"

For his inspired philosophy
Applies who brag of "blue blood" birth.
Luke quickly brings back down to earth.
The rich, the poor, the young, the old,
He proves they're of one common mold.
And, as thru this old world we hike,
Luke shows us that we're much alike.

The Irish of It

A good natured Irishman who had been in this country about a month and who never had seen a grape fruit paused in front of a grocery store admiringly at a pile of grape fruit on display

"My, my," he remarked to a man who was standing beside him. "Them is the big oranges! It wouldn't take many of them to make a dozen, would it?"

A Plea.

Oh, Edison, ere age befog
Your brain, and your fall flat;
Invent for us a barkless dog,
Also a songless cat.

—Luke McLuke.

And when you've regulated man,
This feline-canine life,
We pray you to see if you can
Invent a speechless wife.

—Newark Advocate.

And, Edison, you've filled the land
With things to make folks laugh;
But now my neighbors all demand
A soundless phongraph.

—Canton News

And while you're at it I suggest
(Now don't you ridicule)
That you be sure to do your best
To land a kickless mule.

WILL GIVE ADDRESS ON NATIONAL PARKS

Mrs. Tolman-East to Appear Here Wednesday Under Womans Club Auspices.

The Jacksonville Woman's club has arranged for a public meeting to be held at the Baptist church next Wednesday night, when Mrs. Tolman-East will make an address with special relation to the national parks of the U. S. The general federation of woman's clubs has joined in the effort to prevent the desecration and commercializing of national parks and it is for the purpose of bringing about a better understanding of the national park conditions that Mrs. East is now engaged in a lecture tour.

The address here will be liberally illustrated with natural color iews of the parks and her address sets forth plainly the menace to the national parks and monuments by the provisions of the federal water power act.

The executive board of the Woman's club, of which Mrs. O. F. Buffe is chairman, arranged for the coming of Mrs. East and they have no hesitation in promising that the address will be immensely interesting and full of information.

Commenting upon a recent lecture in Galesburg, the Republican of that city said: "The lecture which was given by Mrs. E. Tolman,-East at the Central Congregational church last Friday evening was exceedingly interesting. Very few know much of the great country in and beyond the Rockies and with Mrs. East it was just like an excursion to Fairyland, for she has the gift of making the audience feel the pictures and of carrying them away with her."

The Furnace

Featuring Milton Sills and Agnes Ayers

An adoption by Julia Crawford Ivers from the novel by Pan

HERE ARE SOME OF THE BIG MOMENTS IN

The Furnace

The morning of Folly's wedding in St. Mary's, with all the world at her feet; when all the gayety cannot hide the fear that perhaps marriage is a sacrilege instead of a sacrament.

The evening at the Monte Carlo Hotel after the wedding, when Anthony Bond bitterly exclaims: "Tonight I am envied by many, but I shouldn't be, for I have married a very beautiful woman who doesn't love me." Love is the only tie which can bind with happiness the lives of a man and woman. Marriage is a furnace otherwise.

The night of the storm when Keene saves Folly from disgrace as she plans to elope with a renegade Count, and with Folly fainting in his arms, meets Anthony on the stairs.

On board the ship bound for greener pastures, as the two, Folly and Anthony, face to face, learn that the furnace of discord and misunderstanding has at last burned itself out.

Drama! Power! Thrills! Here is a picture that will grip the heart. It is at once cruel and tender, cynical and courageous—just as Life is.

Even a Breach-of-Promise Marriage May Have a Happy Ending!

ANTHONY: "So you are here, both of you! My wife and my best friend! And I have caught you, haven't I?"

KEENE: "You are suggesting that you have caught me robbing you of your wife?"

ANTHONY: "Then why are you here together in this house?"

KEENE: "The storm. The car broke down near here. My dear fellow, be reasonable!"

ANTHONY: "Is it reasonable to ask what is your excuse for driving about the country at this time of night with my wife? I also know of Folly's visit to your rooms and the check you gave her—and you have not explained about tonight."

KEENE: "I am damned if I WILL explain. You can believe entirely what you like!"

The Honeymoon Trail--

Where does it lead—to the heaven of happy age, or to the hell of discontent?

In the powerful, dramatic spectacle

The Furnace

you will find depicted in great smashing strokes, with marvelous realism and splendor, the honeymoon trail, as followed by a man and woman of today—such as you and I might know.

The blundering path which these people took is the one millions are taking today.

In your town there are hundreds, if not thousands, who have followed the same trail. These hundreds and thousands ought to see "THE FURNACE."

Are YOU Prepared?

The Greatest Scene Ever Filmed!

Just two men facing each other across a narrow table! And yet, here is without duobt the most dramatic and powerful scene ever reproduced upon a strip of gelatine. For one man, almost mad, after cankerous months of suspicion and distrust, was accusing his dearest friend of life's basest treachery—of robbing him of his wife.

Power? Drama? Spectacle? Irresistible appeal? "THE FURNACE" has all of these, because it is real life! It grips the heart of an audience. It meets every test which a picture must pass.

William D. Taylor's production of "The Furnace" is a picture which every man and woman, married or unmarried, ought to see.

"Women are all alike. When they are maids they are mild as milk; once make 'em wives and they lean their backs against their marriage certificates and defy you!" One of the most powerful and dramatic stories ever told on the screen. It is a heart-searching drama of modern marriage, with thrill after thrill, leading up to a smashing climax. See "THE FURNACE," Monday, Tuesday and Wednesday, Scott's Theatre.

McDONALD CONFESSES LIQUOR STILL OWNERSHIP

Edward McDonald, arrested in Springfield as the owner of a whiskey making apparatus captured by Jacksonville police at 745 North Diamond street, does not deny ownership of the aforesaid equipment. McDonald was brought to Jacksonville from Springfield Saturday morning by Chief of Police Frank Kiloran and is now in the city prison. The man makes no attempt to deny the fact that the whiskey and equipment belonged to him and that he was arranging for the sale of whiskey here. In fact, he said that he had previously made four or five gallons and sold it. The expectation is that McDonald will plead guilty and start in soon to serve whatever term of punishment he is given by the court.

When arrested by Springfield police McDonald was carrying a 45 calibre automatic, altho he offered no resistance. The prisoner says that other people in Jacksonville were interested with him in the operation of the still but he has thus far declined to give any names.

INCOME TAX FACTS YOU SHOULD KNOW

Changes wrought during the last year by births, deaths, and marriages, affect materially income tax returns for the year 1920. Millions of babies were added to family circles, each of whom brings an exemption of $200 in the parents' income tax return.

Boys and girls who have become self-supporting and whose parents allow them the use of their earnings without restriction, form a new class of taxpayers. Each must file a return and pay a tax on his or her net income if such income was in excess of $1,000.

Widows and widowers who lost their husbands or wives during the year 1920 are especially affected. They are single for the purposes of the income-tax law, and are granted only an exemption of $1,000, unless the head of a family. Persons who wer divorced or separated by mutual agreement during the year also must consider themselves as single persons.

Widows and widowers are not required to show on their personal returns income of husband or wife up to the date of death. The income of a decedent is considered separately, and a return must be filed separately, and a return must be filed by the executor or administrator of the estate. A decedent is entitled to exemption for the full taxable year, based upon his or her status as a single or married person at the time of death.

The status of a taxpayer on December 31, 1920, determines the amount of the exemption on that day, the taxpayer was married, and living with husband or wife, claim may be made for $2,000 exemption. If single, or married, and not living with husband or wife on December 31, the exemption is only $1,000.

The taxpeyers' status on December 31 determines also his right to the exemption of $2,000 as the head of a family. If on that date a single person was supporting in his houshold one or more relatives, he is entitled to the exemption If his support of such relatives ceased during the year he is entitled only to the $1,000 exemption.

T. R. CAIN IS OFFICER FOR GRAIN ASSOCIATION

At the annual convention of the Illinois Grain Dealers association held in Champaign, Thomas R. Cain of this city, was elected a director. The convention this year was of greater interest than usual as many topics of special value to farmers were discussed. The convention favors the organization of a farmers elevator co-operative suply company for the handling of supplies of all kinds which elevators use. The next annual meeting will be held at LaSalle.

Harry Wood of Delavan, was elected president and Fred Mudge of Peru, is vice president.

REPORT ATROCITIES BY FRENCH TROOPS

WASHINGTON, Feb. 12.—Stories about alleged atrocities committed by French colonial troops in the occupied area in Germany which have been circulated in this country, "originate in Berlin and appear to be very largely anti-French propaganda," Secretary Colby said in a letter to Senator Spencer, Republican of Missouri.

The senator made the letter public today with the explanation that it answered "many inquiries and protests" received by senators about the alleged misconduct of the French troops.

Secretary Colby stated on information supplied by American diplomatic military agents in Europe "that there are no negro troops remaining in the occupied area and no recent examples of misbehavior have been brought forword."

QUINCY LEGION MEN CALL OFF BOUT

Quincy, Ill., Feb. 12.—Because of pdotest is made by an out-of-town minister who is holding revival meetings here, J. Frank Garner, state's attorney of Adams county, last night warned members of the Henry Rhil post of the American Legion not to put on the boxing exhibition in the armory this coming Thursday night. The post, not wishing to violate a state law in the face of protests of the people, has called off the bouts.

GOOD BANK IN A GOOD TOWN
Jacksonville, Ill.

"All That I Am,"

said Lincoln, "and all that I ever hope to be, I owe to my angel Mother." It was a beautiful tribute to a mother's love and guidance. With characteristic modesty, Lincoln refused to take due credit to himself.

There was a far more powertul influence than his Mother forcing Lincoln to the front: his invincible determination to get out of the rut, his indomitable will to BE somebody. The fact that today millions of his countrymen are revering his memory, show how well he succeeded.

A savings account, even if the salary be very small, coupled with just a tiny fibre of the Lincolnian spirit to succeed, will put any man on the high road to Prosperity.

FARRELL STATE BANK

The Stone Age

—Sometimes we wonder how far we have gotten from the days of the Stone age.

—The old argument that tailored to measure clothes are "High" is a relic of the days when men threw rocks at each other.

—It wouldn't make much difference if we put a piece of cloth in our window and marked it "Suit, $10.00," some bird would come along and exclaim "Too High, Too High."

—We are selling quality, good cloth, fine workmanship, actual fit of garments, long wear, clean trading and a lot of good will and desire to have our customers "Come Back."

—We make the best clothes for the least money of almost any tailor in the country. —Price tells nothing. Price backed by reputation tells a world of things.

—While you are "window shopping" just remember what we've said, but don't stop with "just a look." Come in and satisfy yourself of the truth of our statements.

WILL DISCUSS LANDING OF RELIEF COMMITTEE

DUBLIN, Feb. 12.—Whether the American committee for relief in Ireland, which recently arrived will be permitted to execute its plans, depends upon a joint conference of the civil and military authorities which will be held at an early date.

Chairman France and other members of the committee, with the American consul, visited Dublin Castle today and had a long interview with Sir John Anderson, the under secretary, and General MacReady, both of whom displayed interest in the intentions of the committee but opposed the plan for distribution of money and supplies.

The prime object of the committee is to aid in reconstruction. It was pointed out by the Irish officials that no chance could be risked of the money becoming diverted to the uses of the republican army. It was intimated to the committee that, if relief work, if permitted at all in martial law areas will be sharply defined and that the committee would not be permitted to alleviate the effects of punishment officials inflict for attacks upon the crown forces.

RETURNS FROM ROME.

Paris, Feb. 12.—Dr. Eduard Benes, foreign minister of Czecho-Slovakia arrived last night from Rome, where he engaged in negotiations looking to a commercial accord between his country and Italy. He said a treaty was in process of being written. In discussing the Austrian republic, he said that country should make an effort for her own restoration, and expressed the belief that financial assistance from the allies could only prolong the present critical situation in Vienna.

OMAHA, Feb. 12.—Government weather reports will be sent out by wireless from the radio station at the Omaha Air Mail field beginning next Monday, making it possible for farmers in eastern Iowa and western Nebraska to get them from 12 to 18 hours sooner than at present it was announced ta the bureau of weather ehere today.

BERLIN, Feb. 12.—Removal of important restrictions on beef on hoof, hogs, lambs, fresh meat and bacon, beginning February 15, is announced by the ministry of food. The exisiting regulations will continue in force.

MOUNTED POLICE QUELL DISORDER

ALBANY, N. Y., Feb. 12.—Mounted police drove back several hundred strike sympathizers who rushed toward two stalled street cars operated by strike breakers in the center of Albany's business district late today. One man was slightly injured.

Large crowds lined the sidewalks along Broadway for several blocks thruout the afternoon and taunted non-union men employed in cutting snow from the rails. The onlookers were continually scattered by mounted police. At Troy slow progress was made by the lone car trying to stab thru the snow. There were no disturbances in that city.

Joseph S Droogan, head of the union of 1,200 men on strike, declared tonight that if the fight was reduced to a question of finance, the strikers could "hold out as long as the company."

The United Traction Company said service would be resumed "as quickly as possible."

MAY REPEAT "DEACON DUBBS"

Many favorable comments have been made on "Deacon Dubbs," the comedy drama presented with such great success by Baptist young peopl eat the School for the Deaf Thursday. A large audience was present but many friends who were unable to attend have expressed the hope that the play will be repeated. It is possible that another performance will be given some night this week.

GOVERNOR YATES MADE LINCOLN DAY ADDRESS

The Philadelphia Ledger of Feb. 7th had the following from its Washington Observer:

"Richard Yates, representative at large from Illinois, has been selected by the house to be its Lincoln day orator on Feb. 12. Mr. Yates is the son and namesake of Illinois' celebrated war governor and personal friend of Abraham Lincoln. The elder Yates was elected to the senate in 1865, took his place on March 4, 1865, and was in daily association with Lincoln until the president's assassination six weeks later."

DIED IN CALIFORNIA

MAY SHIFT WHOLE WAR INVESTIGATION INTO NEW FIELDS

Would Throw Light Upon Special Investigators

IMPORTANT TO HAVE FACTS, SAYS FLOOD

WASHINGTON, Feb. 12.—A resolution which is expected to shift the whole subject of congressional investigation of the conduct of the war into a new field was introduced today by Representative Flood, Democrat, of Virginia, member of the general investigation body.

The Flood resolution called upon Secretary Baker for all facts connected with the application of J. M. Hill and C. C. Lindsey "for permission to inspect the secret archives of the war department and the refusal of the department to grant such permission."

Hill and Lindsey were employed by an investigator who was employed by the Johnson sub-committee, and not directly by the committee itself, the chairman explained tonight. A voucher of $2,400, for their work, or part of it, made out in the name of their employer, is held by Chairman Ireland of the House committee on accounts and has not been paid.

The names of Hill and Lndsey were brought before the general investigation committee, of which Representative Graham of Illinois, is chairman, last June. At that time Mr. Flood, in denying charges by Republican members, that the war department's attitude was unfavorable to the investigation, declared the only refusal was in the case of Hill and Lindsey, who were seeking certain secret records containing the settlement of contracts. This action, Mr. Flood charged, was taken after the department authorities had found that the real purpose of Hill and Lindsey was to obtain money from newspapers for information supposed to be on file among government records, "in the event they were unable to obtain a large sum through blackmail."

Mr. Flood announced that it was important to have the tacts laid before the House and that his resolution, being privileges, would be called up from the floor in the absence of a prompt report from the military affairs committee, to which it was referred.

Chairman Ireland, of the committee on accounts, in the House this week criticized the expenditure of large sums by investigating committees, declaring he had seen "no real application of concrete results," from the war investigations.

BUILDING VESSEL TO DEFEND CUP

BOSTON, Feb. 12.—Defense of the America's cup against the next foreign challenger has already began, it was announced today.

Two models built to a size and in details unequalled by any working models known were the mediums of research tests the results of which will probably be reflected in the next races for th classic cup.

The results are not now divulged nor is the source of the large sums spent on the construction and operation of the miniature yachts made known, but the models have been shipped to the New York Yacht Club for safekeeping and exhibition and the data is held by W. Starling Burgess, the naval architect and builder who designed the boats and supervised their sailings.

The models were nine feet long, the masts stood 15 feet high and the boats were built with other dimensions proportionate to America's cup sloop specifications. The models cost $3,500 each to build. They weighed between 200 and 300 pounds each.

Actual operations simulated to a great degree that made it seem human hands wer eat the wheels of the miniature yachts. Instead a mechanism controlled by a clock adjustment worked out the movements of tack and jib, swinging rudder and shifting sail.

PROVIDE MEDICAL ATTENTION FOR VETS

WASHINGTON, Feb. 12.—Arrangements for providing medical attention for disabled American war veterans in foreign countries are being worked out by the war rick bureau and the soldiers' relief organizations of the allied nations, Assistant Secretary of the Treasury LaPorte, in charge of the war risk insurance said tonight.

The plan is to have American veterans cared for by the allied medical authorities where necessary, he said, while at the same time this country would furnish treatment for service men of the allied countries, who are in need here. The expense, he added, would be borne by the respective countries on th basis of services rendered.

Such an arrangement, Mr. LaPorte declared, had been principally completed with Canada and similar proposals are being made to the soldiers' relief bureaus of England, France and Italy.

WILSON CONFERS WITH O'CALLAGHAN COUNSEL

WASHINGTON, Feb. 12.—Conference was held today between Secretary of Labor Wilson and Judge Lawless and Michael F. Doyle, counsel for Lord Mayor O'Callaghan of Cork, who had been given until yesterday by the secretary to leave the United States, but no definite announcement was forthcoming at its conclusion other than that the "situation is unchanged."

Secretary Wilson made this brief announcement but declined to comment on reports that an extension of time had been sought for the departure of the lord mayor. The latter arrived here several weeks ago as a stowaway, but it was ruled that he had technically come here as a "seaman" and as such would be allowed to depart on any foreign vessel within twenty days. The time limit expired yesterday.

O'Callaghan was reported today to be conducting a speaking campaign in New York state, although officials of department of labor had announced yesterday that if he did not leave the United States within the time limit set, a warrant for his deportation would be issued.

Wade Hampton, acting commissioner general of immigration, declared today that he had no knowledge of the order directing the departure of O'Callaghan by February 11.

GREAT INTEREST SHOWN IN WRITING CONTEST

Many Contestants for Prizes Offered By Haas Electric Company.

Several thousand persons were interested in the writing contest fostered by the R. Haas Electric & Mfg., Co. in connection with their Big 3 Vacuum Washing Machine. The first prize was awarded to Claude R. Duquoin of 415 West College street, who wrote the words "Big 3 Vacuum Washing Machine" 185 times in a space measuring 2½ by 1¾ inches. The prize was $15. The second prize went to L. F. Johnson, 1609 Mound avenue, who wrote the words 180 times, prize $7; third prize, Charles E Wolke, 225 W. Edgmon street, 161 times, prize $3.

It was no small task for the judges as they examined several thousand cards and it was necessary for them in some instances to use a microscope. The judges were Leroy Craig, George Edman and Tyler McNeil.

The committee took into account the matters of legibility and neatness in addition to the number of words. Examination of the cards furnishes ample proof of the interest in the contest and the pains taken by the contestants.

R. W Blucke, local representative of the Hass Electric & Mfg. Co., expressed the pleasure the firm feels on account of the interest shown. Mr. Blucke referred to the big task that the judges had in examining the cards. Below are given the names of a few of the contestants who were given honormention because of the excellence of their work altho they did not win prizes:

MISS LORA BANCROFT BRIDE OF HAROLD SWAIN

Impressive Ceremony Unites Well Known Young Couple.

At three-thirty yesterday afternoon a simple but impressive ceremony Miss Lora A. Bancroft became the bride of Harold E. Swain of Sinclair. The ceremony was performed at the home of the bride's parents, Mr. and Mrs. W. A. Bancroft on Prospect street.

The guests at the wedding included only the relatives and intimate friends of the bride and groom. When they had assembled Miss Eloise Capps, accompanied by Miss Virginia Bullard, played a violin solo "Meditation," by Massenet. Miss Eleanor Russel sang, "At Dawning," by Caldmon and "Beloved it is Morn," by Aylward.

The bride and groom then took their places before a bank of ferns in the east parlor and the impressive ceremony was performed by Dr. F. S. Hayden.

The bride was charming in a white satin gown trimmed with silver lace and overdrapes of white tulle. She carried a lovely shower bonquet of brides' roses and lilies of the valley.

After the ceremony and the extending of most hearty congratulations to the newly wedded couple a delicious wedding luncheon was served in the dining room.

Mrs. Swain is the only daughter of Mr. and Mrs. W. A. Bancroft and has spent most of her life in Jacksonville. She graduated at the Jacksonville High school with the class of '17 and subsequently attended Illinois College, where she was a member of the Gamma Delta society. She is a member of Congregational church, and has always taken a most active interest in the social and religious life of the community. A winning personality of charm and vivacity has endeared her to a host of friends.

Mr. Swain is the son of Mr. and Mrs. J. C. Swain of Sinclair. He is a graduate of Jacsonville High school, after which he attended Illinois college and graduated with the class of 1919. While in college he was a member of Sigma, Pi. When the war broke out Mr. Swain enlisted in the navy and entered the ensign school on the municipal pier in Chicago. He is a member of Hebron M. E. church and is active in all the interests of his community. His genial disposition, unfailing courtesy and fineness of character have won for him the friendship and high esteem of all who know him.

After a wedding trip to northern cities, Mr. and Mrs. Swain will return and live in their beautiful new home near Sinclair. The groom has been successfully engaged, in farming there during the past two years.

"Women are all alike. When they are maids they are mild as milk; once make 'em wives and they lean their backs against their marriage certificates and defy you!" One of the most powerful and dramatic stories ever told on the screen. It is a heart-searching drama of modern marriage, with thrill after thrill, leading up to a smashing climax. See "THE FURNACE," Monday, Tuesday and Wednesday, Scott's Theatre.

CENTENARY MEN AND SONS IN BANQUET

The annual father and son banquet of Centenary church was held Thursday evening with 100 present. A splendid supper was served by the Ladies Aid of the church. Following the supper Rev. G. L. Losh of the Methodist church, of Beardstown, delivered an address and Dr. J. W. VanCleave, area secretary of the centenary movement, also spoke. Both addresses were of a high order and heard with close attention by the company.

Sunday School Classes Have Party

The Sunday schoool classes of Miss Ethel Shortridge and Miss Annabel Crum had a Valentine party in the Christian church parlors, Friday evening. About thirty members assembled at 6 o'clock and several entertaining games were played. A dainty supper was then served, the menu carrying out the spirit of Velentine day. After supper a guessing game was played and a valentine contest was held. In the contest several members tried for the prize so they had to draw for it and the lucky one received an attractive gift. The party was a very enjoyable one in every respect.

Miss Kimbel entertained the pupils in her music classes at the School for the Blind, yesterday afternoon. The students all went out to her home on Prospect street when they spent the afternoon in a most pleasant They played different kinds of games and during the afternoon their hostess served delicious refreshments. The genuine pleasure which the young people experienced showed how much they appreciated the kind hospitality of their teacher.

Lenten Services for Children.

The first children's Lenten service was held in Trinity church Friday afternoon at 4 o'clock. The song service in which the children took part was especially beautiful. Reverend Langdon spoke to the children in an interesting way on "The Boyhood of Jesus."

It is planned to hold these services every Friday during the Lenten season and children from all churches are invited to attend. It is hoped they will be of great benefit to the children of the community.

Camp Fire Girls Have Valentine Party

The girls of the Okihe Camp Fire circle had a Valentine party yesterday afternoon in their rooms at the Congregational church. Miss Irene Merrill is the guardian of this circle. It was a typical Valentine party with several games and contests which made the afternoon pleasant. Prizes were given to the winners of the onions contests. Refreshments in keeping with St. Valtine day were served during the afternoon.

Mr. and Mrs. A. B. Green Celebrate Anniversary.

Mr. and Mrs. A. B. Green quietly observed the sixtieth anniversary of their marriage at their home, 1642 South Main street, South Jacksonville Saturday. Ten years ago they celebrated their golden wedding anniversary in an elaborate manner. Yesterday the occasion was observed with a family dinner. During the day the couple received many congratulations from their friends. Those present were: Mrs. Mildred Anderson, Waverly; Mrs. William Craig, Woodson daughters, Mr. and Mrs. Clark Green, Miss Alice Green of this city; Mr. and Mrs. George Robinson of Sinclair, and Miss Hazel Green of Woodson.

Mrs. DeFrates Entertains In Honor of Daughter.

Mrs. Frank DeFrates entertained a company of fifteen little girls at the home, 1069 North Diamond street Saturday afternoon in honor of the Eighth birthday of her daughter, Dorothy. The afternoon was delightfully spent in playing games, prizes being won by Lucille Ornellas and Betty Jane Vasconcellos. During the afternoon dainty refreshments were served. The dining room was tastefully decorated in red and white. Mrs. DeFrates was assisted in entertaining by Mrs. Hugh McGuire and Mrs. Ethelyn McAvoy.

Gave Children's Party

A very pretty children's party was given by Mrs. Clarence Massey at her home on West Lafayette avenue Saturday in observance of the 7th birthday of Clarence Massey, Jr. There were 16 little folks present and they spent the hours very happily with games. Decorations were in pink and white and the Valentine idea was carried out when the lunch was served. The mothers of several o fthe children were also present.

Senior Class at I. W. C. Start Unique Movement

At the class prayer meeting held at Illinois Woman's College, on the day of prayer, the matter of church attendance was discussed. Many of the students admitted that their attendance at church on Sunday was not as regular as it should be. Remedies for the prevailing situation were discussed and the Senior class finally hit on a plan.

The members decided to make their attendance at church today 100 per cent. They also challenged their sister class the sophomores to do the same. Beside each senior girl going to church herself she is to invite one other girl to go with her. The sophomores are doing likewise. Thus every girl in school will have either a challenge or an invitation to attend the church today. This 100 per cent movement for church attendance is not going to stop with this Sunday. The movement will be kept going and it is fully expected by the senior class which started the idea, that in a few weeks the students of I. W. C. will consider it both a matter of pride and desire to have 100 per cent attendance at church each Sunday.

FORMER RESIDENT OF SCOTT COUNTY DIES

Death of Mrs. Grover Grady Followed Brief Illness Friday at Home in Canton — Other Winchester and Scott County Items.

Winchester, Feb. 12.—Many friends of Grover Grady here will be deeply grieved to learn of her death which occurred Friday evening at the family home in Canton. The deceased before her marriage was Miss Louise Keemer, residents of the Point Pleasant neighborhood northeast of Winchester. The deceased had only been ill since Wednesday so her death was totally unexpected.

Mrs. Grady had always resided in Scott county until a year ago, when the family removed to Canton. She is survived by her husband and one child fourteen months of age.

Mrs. Keemer left Tuesday for Canton and Mr. Keemer and daughter, Glema went there Friday. They will accompany the remains to Winchester Sunday morning. The remains will be taken to the home of Mr. and Mrs. Bert Carey, the latter a sister of the deceased, and the funeral will be held Monday afternoon at 2:30 o'clock from the Christian church. Burial will be made in the Winchester cemetery as it will be impossible to go to the Point Pleasant cemetery.

News Notes.

Mrs. Thomas Phippins and daughter, Velma, of Peoria, Mrs. Mamie Gray and Orlean Keemer of Jacksonville arrived Saturday, called by the death of Mrs. Grover Grady.

The property of the late John Hopper was sold Saturday and was purchased by Bird Carlton at a consideration of $830.

Frank Redshaw arrived home Friday from Jacksonville Business college to spend Sunday.

The sale of Cordell Scott held Friday at the farm southeast of Winchester was well attended. The total proceeds amounted to something more and $3,800, prices being uniformly good. C. Justus Wright was the auctioneer. One team sold for $310 and other livestock sales were at good figures. Corn brought 58 to 61c per bushel.

Rev. Mr. Gibbons will not be able to fill the pulpit at the Presbyterian church Sunday and there will consequently be no service there.

The high school boys returned Saturday morning from Vermont and reported a fine game there Friday night. The score was 18 to 16 in favor of Vermont.

J. D. Kitzelman and wife and Miss Grace Leach left Saturday for Beardstown to meet Mr. and Mrs. John Keemer and return with them to Winchester.

David Hainsfurther was kept from the dry goods store of Hainsfurther Bros., Saturday by illness.

SEBALL PLAYERS WILL FIGHT HARD FOR EXONERATION

orneys Making Preparatios to Battle Every Inch of Way

Y BE CHARGED WITH PERJURY

(By The Associated Press)

HICAGO, Feb. 12—Attorneys resenting Chicago American gue baseball players indicted in nection with the alleged throwof the 1919 world series today ned their fight to exonerate the men by announcing that a demand would be made before County Judge William E. Devore Monday for a bill of particulars in the case.

Notification of the contemplated action was accompanied by affidavits from Claude Williams, Joe Jackson, and Buck Weaver, denying that they had entered into any conspiracy to throw the series. Jackson and Williams denied that they had confessed to a conspiracy when they testified before the baseball grand jury but did not repudiate announcements made at the time of the indictments that they had accepted money to throw games.

The action of the defense was not taken by state officials to mean that Jackson and Williams would repudiate their grand jury testimony when brought to trial.

"We expect to fight from beginning to end and to take advantage of every legal process and technicality," Benedict Short, representing the two players, said. "Whether the alleged confessions will be repudiated, ignored, or defended, when the trial begins cannot be said now."

Many Face Perjury Charge.

Announcement of their action, taken by the defense, brought a statement from Judge Charles McDonald, who brought the world series case before the grand jury that if Jackson, Williams or Eddie Cicotte repudiated any part of their grand jury testimony immediate steps would be taken to prosecute them for perjury.

The defense petition asks that the state be compelled to furnish the defense with a bill of particulars of the following: What control and supervision, if any, the White Sox club owners had over the players after the expiration of their contracts for the playing season, September 28, 1919.

When and where and in what manner William Burns and Hal Chase, former major league players, charged with helping engineer the alleged throwing of the series, and Rachel Brown, Sport Sullivan and Abe Attell conspired with the petitioners to discuss the business and reputation of the White Sox club.

What bribe was offered and given and by whom and to whom and when, where and how such bribe was offered and given and by whom it was accepted and received.

When, where and in what manner the petitioners did not execute plays with their best skill and ability and in what games and in what particular plays of each game did the petitioners not play with their best skill and ability.

How games alleged to have been thrown could have been won by the players under indictment.

WHITE HALL TEAM WINS FROM JERSEYVILLE

Basketball Game at White Hall Last Night Resulted in Score of 25 to 19 in Favor of White Hall Players.

White Hall, Feb. 12—Thelocal high school basketball team defeated the Jerseyville township high school five in a fast game on thelocal floor here Saturday night, the score being 25 to 19. The teams played good basketball all the time, the game being the best of the season here. The local boys played with their usual spirit tonight's victory being the fourth straight win. The line-ups follow:

White Hall—Forwards, Frame and Boyd; center, Search; guards, Greer and Goode; substitute, Robley.

Jerseyville—Forwards, J. Danit; Pels, and Post; center Seago; guards, Piggott, C. Daniels and Bowen.

On Friday night the White Hall high school team defeated the American Legion team of this place with a score of 28 to 18. The high school team used the second team a part of the time.

VOLLMER'S ABSENCE CRIPPLED CHICAGO

Chicago, Feb. 18—The university of Chicago basketball slump is attributed by Coach Stagg to the absence of Vollmer, the star Maroon scorer, from the game. The veteran athletic director at the Midway reports he attaches little importance to criticisms voiced in letters printed in the college paper.

"When the season opened we were going well," Mr. Stagg said today. "We have three first class men on the five this year. When Vollmer suddenly took sick the team was not itself, and the time he was in play at Iowa City he did not play his normal game. If Vollmer had been in shape we could not have dropped the Michigan and Iowa games."

ILLINOIS WINS FROM BRADLEY IN OVERTIME

Visitors Defeated by Blue and White in Game Marked by Many Thrills—Final Count Was 21 to 20 in Favor of Illinois.

In a game that was filled with thrills especially in its closing moments, Illinois college defeated Bradley of Peoria in an overtime game Saturday night by a score of 21 to 20.

To say the game was a tough one would be putting it mildly. Both teams tho showing the effect of their game Friday night, played like tigers and it was a battle royal from start to finish.

At the end of the first half the score was 10 to 6 in favor of Illinois. In the second half the teams raced neck and neck until there were only a few seconds to play.

With Bradley leading by one point she committed a foul and Antrobus tossed the free throw just before the gun sounded making the score 17 all.

When the overtime period began both teams started at top speed. However, Bradley negotiated a field goal and a free throw and it looked like it was another hard luck loss for Illinois.

Bradley then began to stall for time, passing the ball around at one end of the court without attempting to carry it toward the goal. Illinois men went after the ball and then Bradley started to work it down the floor. Suddenly Farrell intercepted a pass and made a beautiful shot from near the center of the floor for a perfect basket.

Then with only one point to the good Bradley began to try for another score. Illinois, finally got the ball close to the basket and in a mad scramble Cully leaped high in the air and caught the ball on the rebound from the back board and bumped it into the hoop for a score, making the count 21 to 20. The gun sounded a few seconds afterward. The score:

ILLINOIS:	F.G.	F.T.	Tot.
Brown, f.	0	0	0
Farrell, f.	1	0	2
Antrobus, f.	3	5	11

CHICAGO GRAPPLERS TO MEET ILLINOIS

Chicago.—With but three regulars back and a squad of green men at practice, the University of Chicago baseball team does not anticipate a particularly bright season. Much of the material at work shows indications of promise, however, and it is expected that men will be found to effectively supplement the work of the three veterans, Captain Bob Cole, center field; George Fedor, short stop, and Fritz Crisler in the box.

More material will be available as soon as men are released from other sports. Coach Merrifield expects to develop several good hitters and a fast infield as soon as outdoor practice can begin.

The season's schedule as announced by Coach Fred Merrifield is as follows:

April 23—Chicago vs. Illinois at Urbana.

April 26—Chicago vs. Northwestern at Chicago.

April 30—Chicago vs. Wisconsin at Chicago.

May 4—Chicago vs. Ohio State at Chicago.

May 7—Chicago vs. Michigan at Ann Arbor.

May 9—Chicago vs. Waseda of Japan at Chicago.

May 11—Chicago vs. Illinois at Chicago.

May 14—Chicago vs. Purdue at Lafayette.

May 18—Chicago vs. Waseda of Japan at Chicago.

May 21—Chicago vs. Michigan at Chicago.

May 24—Chicago vs. Northwestern at Evanston.

May 27—Chicago vs. Wisconsin at Madison.

May 31—Chicago vs. Purdue at Chicago.

June 3—Chicago vs. Iowa at Chicago.

June 11—Chicago vs. Waseda of Japan at Chicago.

MURPHY HAS STAR STABLE FOR THIS YEAR

Cleveland, O.—Tommy Murphy, the Poughkeepsie reinsman, who has had the leading money and Race winning stable of the Grand circuit ten of the past eleven years, will be back next summer with another star stable, despite several accidents and an attack of appendicitis which handicapped him in 1920.

Murphy has eight trotters and eight pacers with race records, not including two-year-olds, three-year-olds and "green" horses. Peter Manning, (2:02 1-2), champion trotter of 1920, is the star of the stable. He is considered by many critics to be a two-minute trotter whenever Murphy deems fit to set him after the mark.

PITTSFIELD WINS AT MURRAYVILLE

Take Hotly Contested Game From Morgan County Team by Score of 34 to 29—Game Won In Last Two Minutes of Play.

Murrayville, Feb. 12—Pittsfield by a spurt in the last two minutes of play won a fast game from Murrayville high here tonight by a score of 34 to 29.

The game was hard fought from start to finish. Murrayville was handicapped when ones who was playing a star game at guard, was compelled to retire at the beginning of the last quarter with an injured ankle.

The Murrayville men attribute their defeat to his absence as they said Murrayville was outplaying Pittsfield and Jones' guarding was such that the Pittsfield forwards were unable to break thru.

Pittsfield was fresh from a victory over Waverly on Friday night and did not have their usual pep. However, they worked hard when they found they were up against a real team in the Murrayville five, and their efforts finally brought victory.

For Murrayville the offensive work of Kennedy, Short, Covey and ones featured, while ones also did fine work on the defense.

Plattner was the high point scorer for Pittsfield getting seven field baskets and two free throws. Walsh, the star guard of the Pittsfield team, was closely watched thraout and did not score his accustomed number of baskets. The score:

MURRAYVILLE:	F.G.	F.T.	Tot.

Radiators for Ford Cars

This Radiator contains the honeycomb core.

Experience has demonstrated the principle of this core as the best for perfect radiation. This is the "heart" of the radiator and upon its construction and efficiency depend the satisfactory operation of the car. The shape of the cells adds about 33 1-3 per cent more radiating surface than on other types.

Direct radiation is the strong point of radiators and there is no part of the core which is not utilized for the purpose intended. The enforced passage of the water from top to lower tank in a thin sheet, affords ample radiating surface. The construction of the cells retards the flow sufficiently to permit thorough cooling of the water.

ILLINOIS COLLEGE NOTES

Special exercises in connection with the week of prayer for colleges were held at the Illinois College chapel Wednesday morning. Arrangements had been made last fall by the College Christian associations and a faculty committee to have Dr. Cleland B. McAfee of the Chicago Theological Seminary at the college for most of the week, but illness prevented Dr. McAfee from coming. In the emergency Dr. Thomas W. Smith came to the chapel on Wednesday and delivered a strong and inspiring address to the students.

Nine students were dropped from College recently on account of failure to pass 50 per cent of their work. Several of these were reinstated by the faculty on probation. On the whole, the result of the semester's work was much more encouraging than in any previous year. There was not a single condition in the Senior class. Six students each had a grade of A in everyone of their studies, whereas last year not a single student had such a record at the end of the first semester. This semester there are 69 students who do not ha a single grade below B, whereas at the end of the first semester last year there were only 43 who had such a record.

Additional subscriptions have come in for the Endowment fund during the week; among them one from a member of the class of '80 for $250. Another class has recently achieved a hundred per cent record for its graduates in the endowment campaign. This is the class of '04. The Reverend Arthur F. Ewert acted as secretary of this class and was largely instrumental in helping his class to achieve this record. The only other class that has a hundred per cent record for its graduates thus far is the class of '94.

Robert Shoemaker '20 has an article in the January number of the "Open Court" on 'Truths of Philosophy." Friends of Mr. Shoemaker will be pleased to learn that he is improving in health.

The Reverend Everett D. Martin, '04 has recently published a volume on "The Behavior of Crowds" an interesting study of psychology. The book bears the imprint of Harper Brothers.

Students and friends greatly enjoyed a reading given by Mrs. Thompson Friday morning at the chapel exercises. The title of the reading was "The Old Lady Shows Her Medals," by J. M. Barrie.

The Quincy Alumni association will hold its annual supper on Wednesday evening February 16. President Rammelkamp is to give his illustrated lecture on "The Early History of the College." George W. Govert is president of the Quincy society.

Leo Connolly and Frank Caldwell have returned to college for the second semester. Miss Lillian Gold, a sister of Mrs. F. S. Hayden, has enrolled in Illinois college for special work.

President and Mrs. Rammelkamp will give their annual reception to the students and faculties of the college and conservatory next Friday evening. As has been customary for many years, each of the four college classes will put on a brief dramatic "stunt" and a prize will be given to the class which puts on the best production.

"Women are all alike. When they are maids they are mild as milk; once make 'em wives and they lean their backs against their marriage certificates and defy you!" Buy It To Use

YOU ought to use your silverware. Every piece, from the largest silver tankard all the way to the tiny vanity box was made for utility. You should use it, every day, exactly as you use your automobile, your dining table, and your living room furniture.

You will notice one great difference, of course. Silver does not depreciate. Anything made of sterling silverware grows more valuable as the years go by. You can always keep it looking like new. You cannot break it, chip it or scratch it—even a bad dent or scar can be soon smoothed out by an expert silversmith.

Is it not a mark of prudence to buy more silverware? Every dollar you spend with us will be worth more than a dollar, by and by. Every silver article we sell you, will give you service, day by day. Silver is the housekeeper's best friend. Buy it to use.

T. P. A. POST BANQUET AT NEW PACIFIC HOTEL

Members Enjoyed Fine Time Saturday Evening—Address Given by L. A. Minter, State President

Fifty members of Post O, Travelers Protective Association, enjoyed a banquet at the New Pacific hotel Saturday evening. During the banquet music was furnished by the Hawaiian band which appeared at the Grand last night, and was greatly enjoyed.

Following the banquet Mayor E. E. Crabtree served most acceptably as toastmaster. An interesting feature of this part of the affair was the toastmaster calling upon each one present and asking them to rise and tell their name and occupation.

L. A. Minter of Springfield, state president of the T. P. A. was present as a guest of the local post and delivered a splendid address. Mr. Minter was born in Jacksonville and for many years this was his home. It is needless to say his many friends here are proud of his success.

W. E. Gapen, state secretary of Peoria, was another speaker, who gave some reports on the order thruout the state which proved of interest. Gerald Taylor, C. H. Philleo and L. F. O'Donnell also spoke briefly.

The present officers of the Post are:

President—H. D. Lavery.
First Vice President—G. W. Gard.
Second Vice President—Howard Woodman.
Third Vice President—M. E. Cain.
Secretary—C. F. Ehnie.

Post O now has a membership of 252 and is in a prosperous condition. Following the banquet and program a business session of the past was held.

THE FURNACE

Super special production "The Furnace" an adaption by Julia Crawford Ivers from the novel by "Pan." Scott's theater Monday, Tuesday and Wednesday.

"Marriage makes me think of the furnace at the works—you stand such a good chance of getting burnt."

These were the words which the factory girl spoke as she looked shyly from without upon the most sumptuous and lavish wedding of that social season, when Folly Vallance, lovely, popular musical comedy favorite and Anthony Bond, wealthy Canadian, were married.

The story of the "furnace" thru which the souls of these envied and yet unhappy people were compelled to pass, before the dross of convention, jealousy and misunderstanding had been burned away, forms the heart-stirring theme of the Furnace.

Thru the furnace unchrinking,
thy steps to pursue,
And shield thee, and save thee,
or perish there too.

Have you ever heard an organ recital where the player started easily, almost with out effort, and then building his structure of sound until it swelled into one mighty diapason of melody? Such is the furnace!

In this great, human drama of a modern marriage Mr. Taylor has piled foreshadowing, characterization, climax and denoument into a tremendous pyramid of dramatic power.

It is not often that a single picture is so richly endowed with dramatic tone as well as an abundance of colorful and interesting setting and effects.

Deaths

Allen.

The infant son of Mr. and Mrs. Charles E. Allen died at the family home, 818 East College avenue, Saturday at 10:30 o'clock. The child was born Feb. 2 and so was less than 2 weks old. The remains will be taken to Camp Point Monday where interment will be made.

Baker.

James M. Baker, east of the city, has received the sad news of the death of his cousin, William C. Baker, of Montra, O.

The deceased passed away at his home near Montra on January 31 at 7:00 p. m. After an extended illness. He had been in failing health for a long time.

William C. Baker was born on a farm south of Montra, July 22, 1847, and had been a life long resident of Jackson township. He was a son of Jefferson Baker who was one of the staunch and sturdy residents of that vicinity.

Mr. Baker during his youth attended the district schools of Jackson township and at Port Jefferson. He afterwards followed farming on the homestead farm during the summer and for thirteen terms taught school during the winter season. He later held positions of public responsibility and trust. He was elected county commissioner of Shelby county on the Democratic ticket and served six years in that office. He served two terms as land appraiser was township clerk and trustee of Jackson township for twenty-five years and served as a member of the school board.

Early in life he united with the "Church of Christ," and has always remained a faithful member of that church.

On March 31, 1872, Mr. Baker was united in marriage to Mary C. Thompson who died leaving a son. On April 6, 1875, Mr. Baker was married to Miss Eureka Schmidt who with five sons and six daughters survive him.

He also leaves a brother J. H. Baker, of Lake View, and a sister Mrs. Mary Rhynard of Detroit. A brother, Marion, died in 1909, at Ashin, Mich.

Mr. Baker had frequently visited at the homes of his cousins, Mr. James Baker, Mrs. Thos. B. Boyd and Mrs. Sarah E. Boyce of Jacksonville, and these with other relatives of this city, are left to mourn his loss, but he has left to comfort and inspire them the memory of the life of an upright honorable man respected by all who knew him.

WOMAN'S CLUB MEMBERS HEAR LINCOLN ADDRESS

Rev. M. L. Pontius Heard by Jacksonville Woman's Club Members at February Meeting Saturday Afternoon.

The February meeting of the Jacksonville Woman's club, held Saturday afternoon at Odd Fellows temple on East State street, was in reality a Lincoln observance. The speaker of the afternoon was Rev. M. L. Pontius whose theme was "The Life of Lincoln." The address was one which the large audience found exceedingly interesting and from which they gained a new conception of the life and character of the great American.

A reading by Miss Janette Powell added greatly to the interest of the afternoon. Three musical numbers were given by Mrs. Marguerite P. Forrest of I. W. C. faculty. They were "In a High Hall Garden" by Whelpley; Bonnie Wee Thing" Lehman, and "Black bird Song" by Cyril Scott. Miss Myrtle Larimore was the accompanist.

The arrangements for the afternoon were in charge of the social committee, of which Mrs. Ben Lurton is the chairman. The other members are Mrs. Clarence York, Mrs. Carl York, Mrs. F. P. Dawson, Mrs. Ernest Strawn, Mrs. George Fuhr, Mrs. Bert Killam, Mrs. M. E. Gilbert, Mrs. W. O. Baumgartner, Mrs. E. D. Herald and Mrs Joseph Mallen.

A brief summary of Mr. Pontius' very excellent address is given:

Each patriotic citizen has this day given some tribute of respect or some profound thought to the life and public career of Abraham Lincoln. Lincoln was born on the plains of Kentucky; reared to manhood among the hills of Indiana, but he spent the greater portion of his life in Illinois. In Illinois he passed thru the gradations of his career as storekeeper, lawyer, legislator, congressman and president, for he was a citizen of Illinois when he was called to preside at Washington.

Lincoln was not a church member but he was a man of God. He believed that God cannot be confined within a church or kept within the confines of a denomination. No one can read his address to the citizens of Springfield or his Gettysburg address without concluding that he was one of God's noblemen.

Lincoln was honest. Honesty has always been and still is fundamental in the building of Christian character. If a man is dishonest in his thinking, demeanor and decision he is compelling men to discount liberally anything he may do or say. As a storekeeper Lincoln was strictly honest.

When practicing law honesty caused him to recognize his duty to society and the truth as well as his duty to his client. He was honest and honorable in his dealing with the south at the close of the war and had he lived the reconstruction would have been an evolution instead of a revolution.

Lincoln was born in 1809. Gladstone was born the same year. No two men were more unlike. Gladstone was born in a castle, educated at Oxford, given the benefits of foreign travel, etc. Three times he was prime minister of England. Lincoln was born in a log cabin, uneducated, uncultured, he never was outside the boundary line of his country. Twice he was chosen president of these United States Both Lincoln and Gladstone were great. Their greatness was determined by the fact that they served humanity.

At the close of the formal program the club members and their guests enjoyed a social hour with refreshments.

"Women are all alike. When they are maids they are mild as milk; once make 'em wives and they lean their backs against their marriage certificates and defy you!" One of the most powerful and dramatic stories ever told on the screen. It is a heart-searching drama of modern marriage, with thrill after thrill, leading up to a smashing climax. See "THE FURNACE," Monday, Tuesday and Wednesday, Scott's Theatre.

HELD FATHER AND SONS BANQUET AT WOODSON

The Christian and Presbyterian churches of Woodson united in a fathers and sons banquet at the Christian church Friday night. There were about 200 boys and men who partook of the excellent menu, which included chicken pie, mashed potatoes, salad, pickles, coffee, ice crema and cake. A fine program was carried out, W. H. Fitzsimmons serving most acceptably as toastmaster. Talks were made as follows:

Dr. G. W. Miller, "Home."
Chester Colton, "The Boy in School."
George Cunningham, "The Father and Son as Partners in Sport."
Rev. I. H. Fuller, "Partners in the Home."
S. J. Baxter, "Partners in Business."

Have You Seen it Yet?

Does it seem possible to you that twenty five cents will actually buy anything that is really worth twenty-five cents now-a-days? Could you believe it if you saw a tooth paste of the very best on sale for twenty-five cents? Would you believe it if you saw a regular fifty-cent face powder on sale for twenty-five cents? Does it seem at all likely that there is a cold cream of real merit available for twenty-five cents? Would you like to know where you could get three cakes of the best grade toilet soap for a quarter? Can you get anywhere else a LARGE jar or vanishing cream for this same amount of money? How long has it been since you were able to buy a tooth brush of fifty cent quality for twenty-five cents? Finally, are you willing to save twenty-five or fifty cents by walking a few steps or stopping a few seconds as the case may be, to look in a window where all the above are displayed? If so on the east side of the square, next to the Elliott State Bank you will see a window with an abundance of these articles displayed. Have you seen it yet?

WORDS OF LINCOLN APPLICABLE TODAY

Two Inaugurations of Martyred President in Comparison With Approaching One of Mr. Harding.

(By The Associated Press)

CHICAGO, Feb. 12 — While Senator Harding's inauguration as President of the United States is designed to follow arrangements of Abraham Lincoln's inaugural, there are features of 1861 that fortunately will be missing in 1921.

Instead of veterans of North and South marching side by side as they will next month the only military forces in the inaugural parade of 1861 were the sappers and miners. The rest of the U. S. troops in the capital were stationed in different parts of the city to provide against emergencies. As the nation hovered on the brink of civil war, the great fear of the authorities was that effort would be made to interfere with the ceremonies.

If President Harding follows Lincoln's first inaugural address in compass, he will do it in less than 3,000 words. In that space Lincoln made his plea for the Union and declared his intention to maintain it.

Four year's later Lincoln's second inaugural was overshadowed by the precession of victories. The crowds were smaller than those in '61. Veterans marched in the parade and there was a brilliant array of officers in the city. A much commented on feature of the parade was a battalion of colored troops and a colored lodge of Masons. Philadelphia was represented by several fire companies with engines and two hose companies.

Lincoln's second inaugural address was done in a thousand words, but the following part of it is still echoing in American thought as pertinent to the worlds affairs of today:

"With malice toward none, with charity for all, with firmness in the right, as God gives us to see the right, let us strive to finish the work we are in, to bind up the nation's wounds, and care for him who shall have borne the battle, and for his widow and orphans—to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations."

On this great day the President's thought, as the thought of the nation, was with its generals. The great news on the day that Lincoln was inaugurated the second time was that General Sherman had captured General Early, occupied Charlottesville Va., and was last heard from at Staunton, where nine years before, a war president-to-be, Woodrow Wilson was born.

THE MARIONETTES COME FROM ST. LOUIS

William Owen's Marionettes, which appear here Tuesday, come here from the Little theatre, St. Louis, where they appeared yesterday and play again tomorrow under the auspices of the St. Louis Artists' Guild. Artists and theatrical people everywhere are much interested in the development of Marionettes in America. The revival of Marionettes, which were popular in olden times, has swept Europe, and promises to take America, especially where versatile doll actors are displayed in costumes, stage settings and machinery of artistic merit, in such delightful plays as Jack and the Beanstalk and that whimsical musical dramatization of a famous old English ballad, "Hyne Harro."

PROHIBITION WILL COST MILLIONS

(By the Associated Press.)

WASHINGTON, Feb. 12.—Increased funds for prohibition enforcement were authorized by the senate appropriations committee today. The house provision of $7,100,000 was increased to $7,500,000 and it is understood that advances in salaries of some enforcement agents is planned. The prohibition item was the principal increase voted by the senate committee.

As reported the annual legislative, executive and judicial appropriation bill carries $110,390,000 as compared with the total of $109,781,000 appropriation by the house.

PERPLEXING PROBLEM FACES COMMISSION

Springfield, Ill., Feb. 12.—A perplexing question was put to the new state public utilities commission on its first day in office by three motor bus companies seeking permission to operate lines between Belleville and Mascoutah.

The first mail to the new commissioners brought applications from the Belleville-Mascoutah Motor Bus company, the Superior Motor Bus company and from a third party who sought information as to what steps he should take to establish a line between the two cities.

It was the policy of the old utilities commission to grant permission to only one company to operate a line between the two cities.

EXPECT DECLINE IN ROAD WORK COSTS

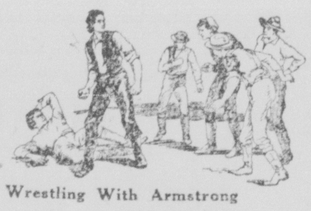

Springfield, Ill., Feb. 12.—Prices to be quoted in bids for the construction of the first road work out of the $60,000,000 state road bond issue, recently asked for by the state department of highways, is expected to serve as a criterion for road work cost for 1921.

Officials of the highway department look for a slight decline in prices over 1920.

The Life of Abraham Lincoln Told in Pictures

Lincoln Practicing Speech-Making

Wrestling With Armstrong

LINCOLN was very strong and courageous in his youth. During a wrestling match with Jack Armstrong, who was the leader of a mischievous gang of boys, and after their leader was thrown, these boys threatened to attack Lincoln, but his courage won their admiration and they became good friends.

LINCOLN early in life was eager to make speeches. He would commit to memory and repeat all the poems and speeches in the books he could find. He would walk miles to borrow a single book. On one occasion Lincoln pulled corn for three days to pay a man named Crawford for a "Life of Washington" he had borrowed and which was injured by a rain one night while Lincoln was sleeping.

Lincoln as a Marksman

IN the summer of 1820, Lincoln started out to shift for himself. When he left his home he went empty-handed. He was already some months over twenty-one years of age, but he had nothing in the world, not even a suit of respectable clothes.

Lincoln Earns His First Half Dollar

IN a boat which he himself had built Lincoln sculled two travelers with trunks out to a steamer which was going down the river to New Orleans. When the travelers were seated on the trunks each of them threw a silver half-dollar on the bottom of Lincoln's boat. Speaking of this incident years later, Lincoln said: "I could hardly believe my eyes as I picked up the money. I could scarcely credit that I, the poor boy, had earned a dollar in less than a day."

Lincoln Reading Law

AMONG the books that fell into young Lincoln's hand when he was about eighteen years old was a copy of the "Revised Statutes of Indiana." This book contained the Constitution of the United States and the Declaration of Independence. The reading and study of these two documents made a profound impression on the mind of young Lincoln.

Lincoln Studying the Constitution of the United States

THE simple ideal was held before Lincoln that in America if a boy is upright and industrious he may aspire to any place within the gift of the country.

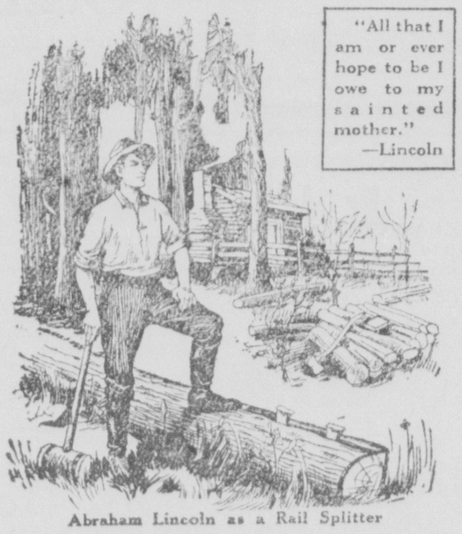

If any reader of this story of Abraham Lincoln should wish to learn more about this same Constitution that Lincoln was so eager to read and receive free of charge a copy of the Constitution explained in a manner so simple that any child can understand it, write

Lincoln as Postmaster of New Salem

WHILE Lincoln was a storekeeper, one day a man drew up in front of the store with a wagon and asked Lincoln if he would buy an old barrel. To oblige the traveler Lincoln bought the barrel and paid him half a dollar for it. When the barrel was emptied, a complete edition of "Blackstone's Commentaries" was found. Lincoln eagerly read these famous law books and his ambition to be a lawyer was greatly stimulated.

The Killing of Lincoln's Grandfather by an Indian

WHILE Abraham Lincoln, the grandfather and his son Thomas, the father of the President, were working in the fields near their home in Kentucky the grandfather was killed by an Indian. Just as the Indian was about to carry off the son Thomas, Mordecai, another brother, fired from the log cabin nearby and the Indian fell. Springing to his feet the boy ran to the open arms of his mother at the cabin door; thus the life of Thomas Lincoln was saved to become the father of the immortal Abraham Lincoln.

WHILE keeping store Lincoln was appointed postmaster. A large number of the patrons of the New Salem post office lived in the country—many of them miles away—but generally Lincoln delivered the letters at their doors. These he would carefully place in the crown of his hat, and distribute them from house to house.

Lincoln Delivering Inaugural Address

SPOKE AS EYE WITNESS OF LINCOLN'S CAREER

Addison G. Proctor, Last Living Delegate to epublican National Convention of 1860, Speaks at Chicago Historical Society Banquet.

Chicago, Feb. 12—(By the Associated Press) — Addison G. Procter, the last living delegate to the Republican National convention of 1860 in Chicago that nominated Abraham Lincoln for the presidency, spoke as an eye-witness of Lincoln's career at the Chicago Historical Society.

Mr. Procter's home is at St. Joseph, Mich. He is spending the winter in Chicago and plans to return to Michigan in the spring.

Altho Mr. Procter is 82 his memory of civil war days is clear.

He took for his text a remark of Horace Greely, made to his little delegation from Kansas in reply to the question of one of the group, "What about Lincoln as a Candidate?"

"Lincoln has a host of friends out here in Illinois who seem to see a 'something in him that the rest of us have not discovered yet," answered Greely. "He lacks experience in national affairs, and such a nomination would not be acceptable to a large part of our people at this time."

National Assurance.

It was this "Something" that Mr. Procter brought to the front, showing how a local confidence gradually developed into a national assurance that no mistake had been made in following the belief of Illinois in Lincoln's reserved qualities of leadership.

"The radical determination of each side to insist on its rights in the opening of the new West, foreshadowing in a crisis that might involve the existence of the Nation, semed to demand as a leader a man of heroic mold especially a man who by experience in national affairs and secured from the start the faith, the courage, and the confidence of the people," said Mr. Procter.

"And so the nomination of Lincon, so untried, so little known, was something of a surprise.

"We simply had to wait for more complete assurance. This assurance came by gradual processes and culminated on the 4th of March, 1861, in the famous declaration of his Inaugural 'My declared purpose is to maintain and defend this Union; to preserve the Republic.'

The Heart of the Nation.

"The nation gave its whole heart in his keeping from that time forward.

"Lincoln's firm stand for this one determination thru four years of victory and disaster in the sunshine and the shadows, tried day by day both extreces of fortune, but never disturbed by either, full of trust and faith that God would never permit this nation to perish, was an inspiration to us all; teaching us more charity, and less malice; strengthening our hopes, our faith, our confidence, exhorting us to wait with patience on God's own time when the bitter cup of war should pass from us. And at last when the integrity of the Nation was secure under universal freedom then came Appomattox."

Story Graphically Told

The story of the joy of that day of the mother's longing now for the time when "Johnny comes march home again," and the thanksgivings of the churches was graphically told by Mr. Procter, together with the tragedy of Lincoln's assassination, when the "Nation bowed in irrepressible sorrow."

"Yes, Mr. Greely," concluded Mr. Procter, "during the most trying five years of this nation's existence, passing thru a crisis that involved the very preservation of the Republic, and coming out victors, one nation under one flag, we too had learned what Illinois had learned before us—that that 'something' was just exactly the 'something' that this nation was most in need of; a great moral leadership.

"We learned this in the shadows, and it was this fact that has given Mr. Lincoln his place for all time in the heart of this great nation, that has placed the name of Abraham Lincoln before the world today as the greatest citizen ever produced by the grandest republic of the earth."

SPRINGFIELD MAY OPERATE OWN PLANTS

Illinois Capital to be First City in Country to Own and Operate Own Heating and Lighting Systems if Proposition is Favored by Voters.

Springfield, Ill., Feb. 12—Springfield will become the first city in the country to own and operate its own heating and lighting systems, according to City Commissioner W. J. Spaulding, if the voters pass favorably on the proposition at a special election on Washington's birthday.

This city has been operating its own light plant for some time. The question to be voted on is whether the city shall absorb its only competitor, a private gas and electric company.

Commissioner Spaulding engineered the deal whereby the city plans to engage in the business of manufacturing electricity and heat. He has fought untiringly during his many years of official life here to get a clear field for the city in the utility business.

Shortly after he entered upon his first term as commissioner of public property, the municipality started the manufacture of light only on a small scale. From time to time additions were made, new machinery installed, and in recent years, the city's entrance into the utility field began to tell seriously on the receipts of the private corporation, the Springfield Gas & Electric Co.

The company's franchise would have expired March 10, and announcement was made some time ago by its president that unless "conditions were made better," it would be compelled to suspend ousiness. This announcement, while it was no surprise to the city officials, left them in a predicament. The municipal plant was not capable of furnishing the entire city with light and heat and if the privately owned concern shut down, more than half the city, including residences, office buildings, mines, etc., throughout Sangamon county would have been left in darkness and without heat.

The local chamber of commerce then decided to try to bring about an agreement, and following a conference, the city offered to buy outright the holdings of the Springfield Gas & Electric Co. The company agreed to sell, but obstacles arose over a method of appraising the property.

It was agreed that the city appoint one member, the company one, and the chamber of commerce a third of a board of arbitration to place a valuation on the holdings of the privte concerns. A clause was placed in the agreement that if the city did not make good in municipal ownership, the properties were to revert to private ownership.

The city is to be given a seven-year contract to furnish power for operation of street cars of the Springfield Consolidated Railway Co., covering the life of that corporation's franchise. All suits pending attacking the right of the city to complete municipal ownership are to be dismissed.

The city has extended the electric and heating franchise of the company until September 15, the period required for consummation of the agreement.

LEAGUE OF WOMEN VOTERS TO MEET IN CHICAGO

Chicago, Feb. 12—(By A. P.) The call of the second annual convention of the National League of Women Voters is made public here thru headquarters of the Illinois League, which used to be the Illinois Equal Suffrage Association.

"The national convention will have won the fight for suffrage," says the call. "By belief in efficiency of the ballot and the value of good citizenship, we have gone thus far. Let us know no pause. From the whole stock of our several experiences and combined wisdom, let us lay our plans more effectively for the future."

LARGE NUMBER CONVICTS PAROLED IN ILLINOIS

Springfield, Ill., Feb. 12—A total of 27,315 convicts have been paroled from the three Illinois penal institutions since 1895, according to records in the state department of pardons and paroles.

DECLINE IN COUNTY JAIL POPULATION

Number of Prisoners in County Jails of Illinois Shows Sharp Decline Since Prohibition Went Into Effect, According to Reports of Sheriffs.

Chicago, Feb. 12—The number of prisoners in the county jails of Illinois has fallen off sharply since prohibition went into effect, it is indicated by reports of sheriffs gathered here by the Associated Press.

Prisoners in the Cook county jail in Chicago, where prohibition has been the most difficult in the state to enforce, show a marked exception to the general tendency. They have made a notable increase. However, the rate at which the number of prisoners were decreasing in county jails through the rest of the state indicates that if the totals were all in, the Chicago increase would be completely wiped out and a large decrease for the state as a whole shown.

Dates on which number of prisoners was counted were Jan. 1, 1917, and Jan. 1, 1921.

Twelve sheriffs reported a decrease in their jail population the first of this year, as compared with four years ago. Three, including Cook county, reported an increase. In one county the figures were the same.

The decrease in county jails outside Chicago amounted to 145 prisoners. On Jan. 1, 1917, these outside jails reporting had 319 prisoners; on Jan. 1, this year, they had 174. This is a decrease of 15 per cent.

In Cook county the increase was 149—from 597 in 1917 to 746 on the first of this year, making an increase of about 25 per cent.

The other two counties reporting increases were, DeKalb, whose jail population advanced from 2 to 5, and Jasper, which went from 1 to 3. Calhoun county figures remained stationary, with 4 prisoners on the two new year's days.

In Will county the county jail prisoners dropped from 62 to 28; in McLean county from 60 to 30; in Knox from 25 to 6; in Livingston from 22 to 6; in Macoupin from 20 to 8; in Cass from 12 to 3; in Stephenson from 12 to 5; in Moultrie from 9 to 0; in Hancock from 8 to 3; in Vermilion from 75 to 71; in Iroquois from 5 to 2; in Jo Daviess from 2 to 0.

SEEK AGREEMENT NOT TO LURE FARM HANDS

SALT LAKE CITY, Utah, Feb. 12—Declared to be a violation of good ethics and a cancer on the good effects sought to be brought about thru the agricultural extension work, county agent leaders from ten western states sought to reach a gentleman's agreement, in conference here today whereby the workers from one state would not be lured to another state with the offer of a larger salary made unknown to the leader of the state from which the man was taken.

FARES FOR FARMERS' INSTITUTE DELEGATES

Danville, Ill., Feb. 12.—Delegates to the annual Illinois Farmers' institute here Feb. 23, 24 and 25 may secure a reduction in railroad fare over all Illinois roads, H. E. Young, secretary of the institute, announces. Mr. Young said delegates purchasing their tickets should request a certificate, which will be validated and the return ticket may be purchased at half fare.

Through this reduction in rates, Mr. Young expects fully 1,200 farmers and their wives to attend the institute.

Among the city arrivals from Orleans Saturday were: Iven Cox, Ben Davenport, West Lindsay, Earl Crawford, T. Holmes and "Buck" Richardson.

NO SERIOUS MINE ACCIDENTS IN ILLINOIS

Springfield, Feb. 12—There were no serious mining accidents in Illinois during the past year, the six mine rescue corps thruout the mining field making only 13 calls, Robert M. Medill, director of the state department of mines and minerals state in his annual report.

The mine rescue stations were located at LaSalle, Springfield, Benton, Herrin, Duquoin and Harrisburg. Each corps was composed of five miners who kept in training thruout the year by practicing mine rescue work two hours each week.

RED CROSS MEETING

The executive board of the Morgan County Red Cross held its monthly meeting at the Red Cross headquarters, library building. Reports of the activities for January were given. There have been eighty ex-service men aided. Two families, in wnich the wage earner is in the service, have been given financial aid until the government allotment and allowance commenced. Three other families have recivd Rd Cross service. The bulk of the work done by the Home Service section in the past month, has been filing compensation claims, and procuring the necessary affidavits connected with compensation claims. It is becoming increasingly difficult, because of the length of time since discharge, for men to connect their present disability with the service, and the evidence sent the Bureau War Risk Insurance must be very full and complete, and should cover the entire period from the date of discharge to the present time. There are many men in this county, whose compensation is being help up, pending the receipt of convincing affidavits.

The amount of money brought into the county during the month of January from the claims filed thru the Red Cross office amounted to $1,013.42. This amount is shown in the files, but as a great number of the men do not report the amounts received, it is impossible to make a full estimate.

Due to the scarcity of nurses, the Red Cross has been unable to procure a nurse to continue the child welfare work started by the chapter last year. Every effort is being made to obtain a nurse in order to continue and enlarge upon this very important activity.

Warren Hoagland, leader. 7:30 evening worship. Sermon by the pastor.

Grace Methodist Episcopal church—Thos. H. Tull, pastor. Sunday school, 9:30 a. m.; T. V. Hopper, superintendent. Under the leadership of Mr. Kerns we now have a very fine orchestra which adds much to the pleasure of the Sunday school hour. We are pushing ahead to the goal, where every member of the church will be in Sunday school, and every member of the Sunday school in the church. When all are helping, the goal will soon be reached. Morning worship, 10:45; Miss Fisk of Chaddock Boys' school will be present with some of their boys. Epworth league, 6:30; Miss Lucile Straight will be the leader with the topic, "Restoring a Country"; 7:30, evening worship. Rev. Jesse B. Thornton of Kobe, Japan, will preach the sermon. Rev. AN UNUSUAL ATTRACTION.

It will be most unusual, varied and rich entertainment that Laurance Clarke will offer to the theatre-goers of Jacksonville at the David Prince Gym next Tuesday afternoon and evening.

The attraction is Lillian Owen's Marionettes, reputed to be the best puppet organization now in America. This company comes direct from the neighborhood Playhouse, New York, and from a very successful three months' run in and around Boston.

The engagement here consists of two performances, a matinee and an evening program.

"Jack and the Beanstalk" is the feature of the afternoon performance. This is a puppet dramatization of the well-known children's story, and every incident of the tale actualy happens on the stage, even the growing of the beanstalk and Jack's hazardous adventures in the Giant's country. Every child will remember the picture of nimble Jack tripping the clumsy Giant. "Polly and Her Pals" will also be present, and will carry on in their usual funny way. "Sambo" and his Mule," a hilarious circus stunt, is also promised.

The major attraction will be "Hynd Horn," an effective musical drama, which will be presented at the evening performance designed particularly for adults. This tender and beautiful play is a dramatization of an old English ballard. It deals with the adventures of the hero Hynd Horn in a strange country who has passed a law that all his subjects must speak in rhyme.

Poor Hynd Horn breaks the law, is separated from his sweetheart, and banished to the high seas. A real ocean storm takes place upon the stage, the wind howls, the ship is tossed to and fro, and Hynd Horn, oblivious to danger, drowns his sorows by singing of his lost Princess. In the end the law is repealed and Hynd Horn returns to court. The play closes with beautiful tinkling fairy music and the wedding of the hero.

Different from "Hynd Horn" is "Mimi, the Three-Hundred-Year-Old Ballet Dancer," an exotic balelt number. Another extraordinary specialty of the evening performance is "Gentle Alice Brown," from the Bab Ballards by W. S. Gilbert, of Gilbert and Sullivan fame. This is a gay pictorial sketch portraying the love adventures of Gentle Alice, the robber's daughter.

"BUDDIES" COMING TO GRAND MONDAY

After twelve consecutive months in the Selwyn Theatre, New York, the Selywns will give this city an opportunity to see "Buddies" the charming musical play which drew capacity audiences for an entire season in the Eastern Metropolis. "Buddies" will be the attraction at the Grand theatre Monday.

In his story George V. Hobart unfolds a dual romance of singular fragrance and charm, and B. C. Milliam has threaded this double-love-story with quantities of such lifting melodie that they have set the whole country whistling When Julie, the quaint maid of Brittany sings "Please Learn to Love" to her excruciating shy soldier-sweetheart she warms the cockles of every heart in her audience, and when the "Buddies' themselves make the welkin ring with their "Hello Home" number it is difficult to keep one's feet still The music of "Buddies" has found its way all over the world in both published form and talking mechine records, but nowhere does it seem so filled with charm as when interpreted by the excellent company of players whom the Selwyns will present here

For Beauty's Sake

Remove that film-coat from your teeth

Teeth cannot glisten with a film-coat on them. You who want white teeth must learn how to remove it.

This week your druggist offers—free—a new way of teeth cleaning. Millions now employ it. Leading dentists everywhere advise it. Go make that test. One week's results will be a revelation.

Film—the great enemy

But this is more than a beauty question. Film ruins millions of teeth. Most tooth troubles are now traced to it.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste cannot end it, so the tooth brush has left much of it intact.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing, because brushing failed to end that film.

Now a new dental era

Dental science, after years of research, has found ways to combat film day by day. The methods have been proved efficient by many careful tests. High authorities endorse them. And millions of people now employ them, largely by dental advice.

These methods are combined in a tooth paste called Pepsodent. Together they combat the film as nothing else has done. And they are fast bringing, the world over, a new era in teeth cleaning.

That is the tooth paste you are urged to test. See the instant results—watch the effects for ten days. Then decide for yourself between the old ways and the new.

The unique effects

One ingredient of Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

The Pepsodent effects come with every application. Day by day they fight the teeth's great enemies. And teeth are protected as they never were before.

See and feel it act

Present this coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The results are quick and apparent. A little book tells the reasons for them. For your own sake learn how much they mean.

FREE

This week only

At any drug store named below, a 10-day tube of Pepsodent. Simply present the coupon. Let this new way prove itself. Judge by results what it means to you. Learn now the way that millions know to whiter, safer teeth.

Now daily used by millions

Millions of people are now using Pepsodent. You can see the result wherever you look—in glistening teeth

Women who think their teeth who now should see how they look with the film gone.

With men who smoke the films are apt to be particularly discolored. They will see the most conspicuous results

But children need Pepsodent most Their teeth are most subject to decay Dentists advise that Pepsodent be daily applied from the time the first tooth appears. It may save them troubles life-long in effect.

Miss Let Clayton is spending this week with Miss Helen Bell.

O. N. Angelo spent Thursday with Mr. and Mrs. E. L. Hamel, near Lynnville.

Mrs. H. O. Peters, of Kansas City, Mo., whose experience with Tanlac has been nothing less than wonderful, declares her husband. After her improvement he takes it himself and his health is also restored.

"One day a friend persuaded my wife to take Tanlac and the results have been nothing lss than wonderful. Her troubles have not only entirely disappeared, but she has actually gained twenty pounds in weight and now seems to be in perfect health. She has suffered for eight years with headachs, nervousness and loss of appetite and was in a badly run-down condition. She could not eat much, had pains all through her body and limbs and was so weak at times she could hardly stand on her feet. She was losing weight and gradually getting worse all the time in spite of all we could do.

"After seeing the splendid results my wife was getting I began taking Tanlac myself and before I had finished my second bottle, I was eating things I had not dared touch before in a long time. I am now eating just anything set before me and my appetite is fine. I suffered for five years with the worst kind of stomach trouble and nervous indigestion, but it has relieved me entirely. We both owe Tanlac a great debt of gratitude."

The above enthusiastic statement was made recently by Herbert O. Peters, well-known citizen of Kansas City, Missouri, residing at 534 Walnut street.

Tanlac is sold in Jacksonville by Coover Drug Co., in Franklin and Waverly by the Dyle Drug Co. and by the leading drug store in every city.—Adv.

GOOD FIGHTER BUT NOBODY KNEW IT

OGDEN, Utah, Feb. 11.—A school boy love affair was found to be back of a blackmail scare at Roverdale, a farming community near here, according to Sheriff Richard Fincock, who today questioned Tom Zito, 15 years old.

The boy is said to have confessed that he wrote three threatening letters demanding $5,000 from L B. Bingham whose young daughter had looked coldly on Tom's attentions.

Attention was directed to Zito because one letter casually set forth that "Tom Zito is the best fighter in Riverdale, but nobody knows it."

CLOSING OUT SALE

The Greatest Money Maker is the

Primrose Cream Separator

Remember the money obtained by using a Primrose is all clear gain. By its use you gain fully one half pound of butter fat for every 100 pounds of milk. This means a bigger return on the money invested than is possible with any other article. A poor Cream Separator is worse than a thief. It robs you every time you turn the handle.

SEED CORN—We have a wonderful season at Mason City this year for maturing seed corn with the result that we have the finest lot of well dried 1920 crop of seed corn that we have ever grown. This corn is gathered early in the fall and placed on drying racks when it is very slowly dried down to twelve or fourteen percent moisture content. This gives corn of very high vitality. We have been in the seed corn business in a large way for over thirteen years and have the largest and best equipped drying plant in the world. Our down town plant is in the center of Mason City, right on the hard road between Springfield and Peoria. It is well worth a trip to Mason City to see this corn. Price is only $3.50 per bushel. Write for beautifully illustrated catalogue. Box 44.

WHEAT MARKET HAD GOOD WEEK
(By the Associated Press.)

CHICAGO, Feb. 12.—Apprehension expressed regarding threatened impairment of the winter wheat crop has been largely responsible for notable upturns in the wheat market this week. Compared with a week ago, wheat prices today showed 9¾c to 13c advance, corn was up 2⅜c to 3c, and oats 2⅛c to 2⅜c@2⅞c. On the other hand provisions were down 65c to $1.50.

Indications that an unusually wide-spread area in the southwest had been more or less affected by the insect pest known as the green bug forced the basic for misgivings about crop damage. Competent authorities said the progress of winter wheat would depend on weather conditions dudring the next six weeks with maximum injury probable if temperature in the southwest were low—only a little above freezing. Much talk was likewise current that from this time onward the chief factor in establishing values would be domestic conditions instead of foreign. Unwillingness which growers displayed toward selling was the subject of particular comment. Bears yesterday, however made much of predictions of a larger crop movement coming especially in North Dakota. Considerable notice also was taken of preceedings to restrain any more United States treasury credits to foreign governments.

Corn and oats sympathized with the wheat bulge

Big receipts of hogs weakened provisions.

BLUE GOOSE INN MUST HAVE BEEN SOME PLACE

Former Proprietor Sentenced to Six Months in House of Corrections and to Pay Fine of $200.

(By The Associated Press)

Milwaukee, Wis., Feb. 12.—Eddie King, former proprietor of the Blue Goose Inn beneath the Grand avenue viaduct, notorious road house was sentenced to six months in the house of corrections and fined $200 and costs in municipal court here.

Seven girls were in court as witnesses and the audience chamber of the court room was almost filled with taxicab drivers and members of the night life of the road house district. Four of the grls testified to having "picked up men' whom they took to the Blue Goose Inn. Orgies that were indulged in on the floor of the dance hall were described to the court.

THE MOST BEAUTIFUL CAR IN AMERICA

THE FAMINE IN CHINA

Recently exthacts from a letter written by Dr. J. Herman Wylie, associated with Rev. Robert Cunningham in mission work at Paotingfu, China were published in the Journal. The letter gives details of the sorrowful conditions that prevail in the famine stricken areas of China. The concluding paragraphs of this informing letter are presented herewith:

At the end or each week grain is given out to each child to more than feed him. He can take this home and add it to the stores of his family. The sum total given to each child amounts to about $1.50 per month of grain. This will more than keep him from starvation and will leave a little margin for the other members of the family. At the present rate of exchange this amount is equal to about $80 gold.

Our own Mission already has 9 or 10 of these schools under way. Money is promised and plans are being made for 13 more. The Presbyterian country is all in the hands of Mr. A. K. Whallon.

The Congregational Board which covers a much larger territory than we do will have about twice as many schools. The Catholic Mission also have a large number. They have a very strong Mission to the south of us. We have a request in for work for men. We hope to open up a river that goes past Paotingfu and is a very important avenue of trade from this part of the country to Tientsin. For our Presbyterian work Mrs. Cunningham, Dr. Mackey and Misses Gumbrell and Taber are carrying the heaviest part of the burden. Miss Gumbrell and Miss Taber are out in the country most of the time. They have two or three large groups of women at work making wadded garments for the destitute. Good sewers are detailed for a better class of work such as can be sold at home and in some of the port cities. There are many things that these people might be taught to do, but on the one hand the expense and difficulty of obtaining the raw materials and on the other the difficulty of obtaining the raw the finished products makes many kinds of work almost impossible. One of our greatest difficulties with which we have to contend is the lack of interest and sometimes direct opposition on the part of the Chinese officials and those in positions of influence.

The government has placed considerable sums of money in the hands of the Union International Famine Relief Committees. The Foreign Missionary Bodies and Chinese Christian church enjoys the confidence of the masses and of the Central Government. It is a chance for us to show that the Church of Jesus Christ stands for Honesty, Justice and Humanity. Today in spite of all the difficulties that missionary life in China entails one still has cause for great joy that the Good Master has entrusted him with a life and strength to give out for China at such a time as this.

What do we need? We need money to run orphans refuges; schools for hungry children, work yards for women, soup kitchens for the aged and crippled and nursing mothers, to buy clothes for the naked and grain for distribution now and seed **sowing in the spring**. It is estimated that the very least that can save a life until next June is six dollars Mexican (about $3.50 gold). Will not those who read this feeble call stretch out a helping hand to their Chinese brothers? Of the abundance which God has given to you, will you not give back again some to His needy ones?

A letter from Miss Gumbrull out in the country in the thick of the famine district ended with this sentence. "I feel like a diver in a bell at the bottom of the ocean. I am depending on you people at the station by your prayers to keep the air pumped down to me." And so I send the call abroad. If you people in the Homeland at this time don't by your money and your prayers keep power pumped out to us What shall we do?

Money may be sent thru the board or by New York drafts to the Rev. A. M. Cunningham, Paotingfu, China. Do not buy Mexican or Japanese Yen.

Most sincerely yours in His Name
J. Herman Wylie.

CLOSING OUT SALE.

At farm, ¼-mile north of Woodson, Tuesday, Feb. 15. Commencing at 11 a. m., consisting of horses, mules, cows and farm machinery. W. E. McCurley.

IN MEMORIAM.

The following lines are printed in memory of John A. Dunlap, only son of Mrs. Mary E. Dunlap, who died one year ago:

Only some withered flowers,
Where the earth is new and bare;
And a white and shining headstone
For the dear one lying there;
Sad sour leaves and grasses
To mourn through the somber night,
For the one who sleepeth,
In robes of spotless white.

Only the tear drops falling
On the gold of the fading year,
And a mother bending o'er them—
With God alone to hear!
While memories silent voices
Bring back the lisp and tone
Of the truant soul that vanished
To the dim and vast unknown.

But, oh! that the tears of sorrow
Could wash our grief away!
And, oh! that our eyes tear ladened
Would look to a brighter day!
But all in vain we stifle
The sobbing prayer so wild,
For the eyes behold forever
The form of my dear child.

—From Mother.

RURAL CONDITIONS MUST BE IMPROVED

BOSTON, Feb. 12.—Unless rural health conditions and educational facilities are greatly improved there never will be an adequate number of women farmers, said Mrs Allen P. Stevens, director of the home department of the Maine State Chamber of Commerce and Agricultural League in an address here today.

Mrs. Stevens described the life women are forced to lead on Maine farms where in some instances there are neither doctors nor nurses, within a radius of nineteen miles and roads are poor especially in winter.

ILLINOIS WOMAN'S COLLEGE NOTES

Miss eanette Powell read "The Toy Shop," a Lincoln story, at the Woman's club Saturday afternoon. Miss Powell's work is always most acceptable and her efforts were highly appreciated by the ladies present.

The Department of Expression gave a recital Friday afternoon in Music Hall. Quite a number of visitors and friends were present.

The week of prayer exercises were held according to schedule during the week. Dr. Herbert A. Keck, pastor of the First Methodist church of Champaign, delivered the sermon Thursday morning at 10:30; it was a most inspiring and helpful message.

Mrs. O. L. Hammond of Taylorville was a guest at the college for several days this week.

Mrs. W. I. Terhune, of Flora, Ill., visited her daughter, Miss Grace, for several days this week.

The Home Economics club will give its Valentine party Saturday night at the home of Miss Mary Hall on South Main street.

President Harker talked to the students at chapel Saturday morning in regard to the society problems and the needs of the college. A special committee, consisting of a representative from each society and an equal number of students representing the non-society girls will meet the changing conditions.

President Harker expects to leave Monday morning to attend the dedication of the Wesley Foundation buildings at Urbana. He expects to be gone several days in connection with these exercises.

Miss Amy Haberer of Owensboro, Ky., a graduate of the Cincinnati Conservatory of Music, and a former pupil of Director Pearson, will arrive at the college Sunday afternoon to remain for the rest of the school year. She will take up her work again with Mr. Pearson.

One of the immediate results of the week of prayer was a decision by the senior class to be 100 per cent in church attendance for the rest of the school year. In addition each member of the class pledges herself to invite some other person. The class has challenged the other classes to join with them in this "go to church" plan.
